Warranty
3M Deutschland GmbH warrants this product will be free from defects in material and manufacture for a period of 12 months from the date of purchase. This warranty includes ALL IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. User is responsible for determining the suitability of the product for use as intended. If this product is defective within the warranty period, your exclusive remedy and 3M Deutschland GmbH's sole obligation shall be repair or replacement of the 3M Deutschland GmbH product.

Limitation of Liability
Except where prohibited by law, 3M Deutschland GmbH will not be liable for any losses or damages arising from this product, whether direct, indirect, special, incidental or consequential, regardless of the theory asserted, including warranty, contract, negligence, or strict liability.

Symbol Glossary
Reference Number and Symbol Title
Description of Symbol

ISO 15223-1:5.1.1 Manufacturer
Indicates the medical device manufacturer as defined in EU Directives 90/385/EEC, 93/42/EEC and 98/79/EC.

ISO 15223-1:5.1.3 Date of Manufacture
Indicates the date when the medical device was manufactured.

ISO 15223-1:5.1.4 Use-by date
Indicates the date after which the medical device is not to be used.

ISO 15223-1:5.1.5 Lot
Indicates the manufacturer's batch code so that the batch or lot can be identified.

ISO 15223-1:5.1.6 Catalogue
Indicates the manufacturer's catalogue number so that the medical device can be identified.

ISO 15223-1:5.1.7 Reusable
Indicates a medical device that is intended for use one or more times after a single procedure during a single procedure.

ISO 15223-1:5.4.4 Caution
Indicates the need for the user to consult the instructions for use for important cautionary information such as warnings and precautions that cannot, for a variety of reasons, be presented on the medical device itself.

CE Mark
Indicates conformity to European Union Medical Device Regulation or Directive.

Medical Device
Indicates the item is a medical device.

Rx Only
Indicates that U.S. Federal Law restricts this device to sale by or under the direct supervision of a dentist.

Recycle
Indicates packaging is recyclable with mixed paper.

Low-density polyethylene
Indicates plastic component made of low-density polyethylene is recyclable.

Green Dot
Indicates a financial contribution to national packaging recovery company per European Directive No. 94/62 and corresponding national law. Packaging Recovery Organization Europe.

These Instructions for Use should be kept for the duration of product use. The device may only be used when the product labeling is clearly read. For details on all additionally mentioned products please refer to the respective Instructions for Use.

Intended Purpose
Intended users: educated dental professionals, e.g., general dentists, dental assistants, dental hygienists, who have theoretical and practical knowledge on dental materials.

Indications
Express XT Intra-oral Syringes: Syringing preparations with VPS precision impression materials in accordance with ISO 4823 Type 3 and Type 2. Provided the VPS impression materials are intended for syringing.

The Intra-oral Syringes may be used for impression materials with a higher consistency or for other products in paste form (e.g., impression materials with a normal consistency) or be used individually with the aid of a dispenser manifold (e.g., Garant[®]) directly to a part of cartridges of 50 ml.

Use the present Instructions of Use when the product is used during the life of the product. The product is intended for use during the life of the product. The product is intended for use during the life of the product.

Contraindications
None.

Application
The content of an Intra-oral Syringe is sufficient for syringing about 2-4 preparations, depending on the quantity applied around each area. An Intra-oral Syringe should only be used on one patient.

Have the hand dispenser with the inserted 50 ml cartridge ready for use before Garant installation instructions, for example.

Remove the original cap or the mixing tip cap from the cartridge from the previous use from the 50 ml cartridge. Retain the original cap.

Check the cartridge opening for any visible contamination or interference with the instructions for use for the impression material; press out a small quantity of base paste and catalyst to equal the paste.

The mixing tip cap from the Intra-oral Syringe can be stored for long as long as 12 hours. It may be necessary to prepare a number of Intra-oral Syringes in advance, depending on the number of preparations.

Immediately before application, fold out the mixing tip of the Intra-oral Syringe at an angle of 90°.

The mixing tip must be folded out completely to prevent leakage at the mixing tip joint.

Press out a small quantity of paste onto a mixing block until the base paste and catalyst flow out of an even, homogeneous mixture.

Immediately apply the impression material around and in preparation in accordance with the instructions for use.

Refilling an intra-oral syringe which has been emptied or partially emptied is prohibited.

Notes
Please report a serious incident occurring in relation to the device to 3M and the local competent authority (OE) or local regulatory authority.

Syringes and intra-oral cartridges are not to be used and would be damaged when removing seal impression material.

Please keep the single-use accessory in the original bag to guarantee the possibility of the batch.

Intra-oral Syringes cannot be autoclaved.

The Express XT Intra-oral Syringe may be used only for additional-type impressions (ISO 4823 Type 3 and 2) with the mixing ratio 1:1. Filling the Intra-oral Syringe with the wrong paste will cause incorrect mixing results.

Notes
Informe de conformidad de este producto con las normas en vigor. Este producto es conforme con las normas en vigor. Este producto es conforme con las normas en vigor. Este producto es conforme con las normas en vigor.

Limitation of Liability
Except where prohibited by law, 3M Deutschland GmbH will not be liable for any losses or damages arising from this product, whether direct, indirect, special, incidental or consequential, regardless of the theory asserted, including warranty, contract, negligence, or strict liability.
