

SOOOO COMFORTABLE  
IS **IDENTIUM**<sup>®</sup>

PRECISION IMPRESSION

**KETTENBACHDENTAL**

Simply intelligent

# IDENTIUM<sup>®</sup> – THE UNIQUE MATERIAL COMBINATION!

## A new generation of precision impression material

Combines the advantages of two proven impression materials (A-silicone and polyether) - Vinylsiloxanether<sup>®</sup>.

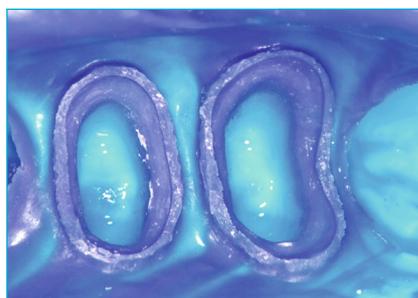

### ONE-STEP IMPRESSION

- Monophase impressions
- Double-mix impressions

### INDICATIONS

- Crowns and bridges
- Implants
- Inlays and onlays
- Combined restorations (fixation impression)
- Pick-up impressions
- Functional impressions

Double-mix impression

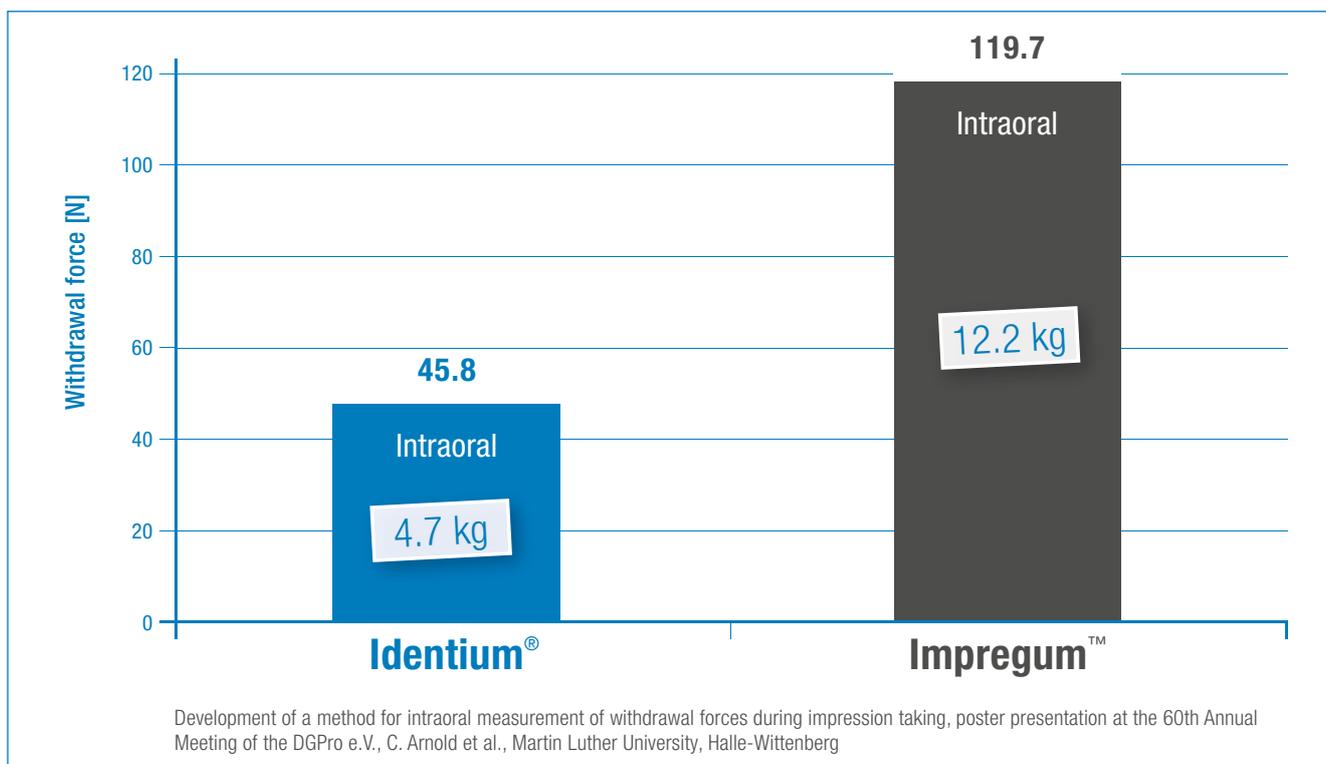

Implant impression

# IDENTIUM<sup>®</sup> – COMFORTABLE IN ALL DIMENSIONS

## Removal from the mouth - as light as a feather

Identium<sup>®</sup> vs. Impregum<sup>™</sup>: 2.6 times lower withdrawal forces

By removing from the patient mouth without exerting force, you avoid deformations and irritations.

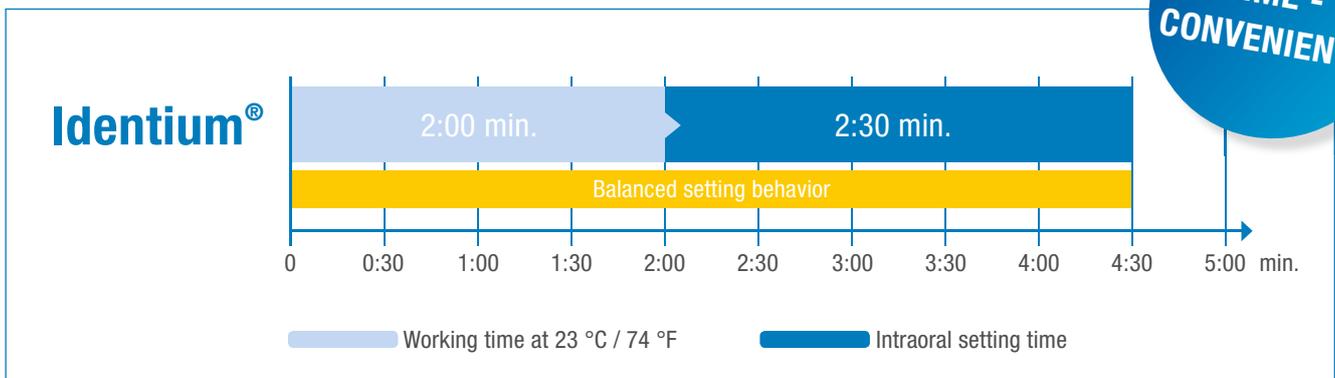

**For your precision.**

**Advantages your patient will appreciate too**

## Fast final setting time

with sufficient processing time and short intraoral setting time

The sufficient processing time allows you to work calmly.  
**For your precision.**

## Outstanding flowability

With excellent flowability, you also accurately reproduce even the narrowest gaps.  
**For your precision.**

- **Odorless and tasteless material** reduces retching and vomiting reflex
- **Quick setting and easy removal from the mouth** for a relaxed and pleasant feeling
- **Thixotropic flowability** avoids stains on skin and clothing
