IDS 2017 – our international team

## Always close to our customers

Hager & Werken and its brand miradent have been well-known to dentists, dental technicians and dental professional personnel for more than 70 years. The product catalogue has long been used and kept as a compendium for innovative product specialties. Since 2000 it has also been available online at [www.hagerwerken.de](http://www.hagerwerken.de). In 2017 this service was optimized for cell phones. Our products are constantly checked and new products are only introduced to our range if they offer a clear advantage to available alternatives - true to the motto "always one step ahead!". A new product needs to be quicker and more practical in use and should at best also offer a higher patient comfort.

Hager & Werken offers its products on 6 continents and it is due to our promise of quality that we were able to acquire many new satisfied regular customers over the last two decades. Not only is this promise of quality being attested by annual TÜV audits in accordance with ISO 13458, but this concept is also incorporated in our company. Many customers compliment us on our pursuit of quality with our own products. Being a family-run business, we put particular emphasis on employee training. About 25% of our staff consist of our former trainees, resulting in the personal engagement and professional competence we value in each and every employee. In the end, it is the customer who benefits from it.

We should be grateful for your continued confidence in us in the future and look forward to enriching your everyday work with our innovative products. Your satisfaction is of the utmost importance to us. Please get into direct contact with us for any question, suggestion and criticism – we look forward to hearing from you!

*Patrick Hager*

## 06 Impression

The new impression tray with patented foil technique is a development of the team of Prof. Dr. Spiekermann (University of Aachen). Implant posts penetrate the foil quickly, clean and with high-precision. Big time and cost savings as no laboratory or 2nd patient impression is needed.

## 10 Application/Injection

Since 1967 Miraject has been standing for leadership and quality. Over 500 million blunt and bendable application canulas with ensured precise and controllable application of liquids and pastes.

## 17 Rubberdam

Excellent quality and long-lasting constant clamp force. Our stainless steel „formula“ ensures high precision, and the clamps adjust individually to the corresponding tooth. We offer all clamps optional in non-reflecting dull black, e.g. ideal for microscopes and loops usage.

## 24 Fillings/Endodontics

Many little helpers save the dentist time while offering additional patient comfort, e.g. our fissure printer for composite fillings, our atraumatic Crown-Click or N2 root canal cement for difficult cases.

## 32 Dental Specialties

Wide range of innovative products such as Reso-Pac, a „self-dissolving plaster“ in the mouth,“ GapSeal THE prevention against Periimplantitis, Mirahold bite blocks to hold mouths open and many more ...

## 52 Patient Service and Motivation

Our study models educate patients and raise awareness of high quality prosthetic restorations. Additionally we feature a wide range of toys to reward brave, young patients.

## 60 Bambach®

Our saddle seats have often been imitated, but never equaled. More than 16,000 seats relieve back tensions in German dental practices. We would be more than happy to visit your practice for a free demonstration.

## 62 Devices

For over 30 years we have been a reliable partner for modern radio-frequency surgery units. Our LaserHF offers the perfect combination of Laser and RF technology.

## 67 Protection and Hygiene

As a market leader for dental eye protection, we not only emphasize on safety but also on comfort and stylish designs. In addition to our iSpec series we offer face shields and economically priced H&W protective eyewear.

## 76 miradent®

Our prophylaxis home care assortment: A full range from infant to senior care products. In our campaign „Chew against Plaque“ we educate about the benefits of Xylitol e.g. anti-cariogenic effects.

## 97 Lab Products and Small Equipment

For (in-office) labs we offer small devices and consumables. Highly appreciated best sellers are : Occlu Spray, Mirawet mixing liquid, our light curing Speed Labolight and our portable Micromotor Bravo Portable.

## Miratray® Implant

### Implant impression tray with patented foil technique

- Saves you and your patient an additional patient visit and laboratory costs
- Controllable and safe impression taking with clear view of implant posts
- As foil meets precisely at implant posts, a clean impression is taken
- No overflowing impression material
- Customizable, user-friendly and cost-effective
- Available in three sizes for maxilla and mandible (dentulous and edentulous)
- Suitable for all implant impression materials and implant systems

“Making an individual tray in laboratory is no longer necessary = time saving (appointment) and cost saving for the patient.”  
Petra Weidenmüller, Magdeburg

## Miratray® Spray

### Adhesive spray

- Ideal spray bonding agent for impression trays
- For better adhesion of the impression material to both, plastic and metal trays
- Use only in combination with impression material

Article description	Content	REF
Miratray Spray	200 ml	554 210

## Algilock

### Extremely durable impression tray

- “Retention rims” hold the impression material without adhesives
- Laser-welded handles and ridges for a solid interconnection
- For dentulous jaws
- High-quality, corrosion-resistant stainless steel
- High durability, highest shape stability and long-term good appearance
- Autoclavable without loss of quality
- Only Algilock offers such a unique model variety and solid top quality
- On request, Algilock is available for maxilla and mandible as:
  - Algilock partial (perforated/non-perforated)
  - Algilock pedo (orthodontology)
  - Algilock edentulous (perforated)

## Algilock Pedo

### Perforated orthodontic trays - small

- For dentulous jaws, especially for pediatric dentistry

Article description	REF
Lower, PI 2	101 046
Upper, PS 2	101 047

## Algiloid®

### Highly precise hydro impression material

- Favorable alternative to silicone impressions
- The tray remains in the mouth for only approx. 3 min.
- Easy and quick handling
- Environmental-friendly disposal with household waste
- Combines the advantages of agar hydrocolloid with those of alginate
- Canula tips (package of 2) available separately upon request

#### Highly precise, inexpensive and time-saving impressions with the Algiloid System

The Algiloid system consists of algiloid hydro material as "light body" and customary alginate as "heavy body". Material must be used pre-warmed.

Article description	REF
Box of 48 cylinder ampoules	101 401
Algiloid syringe III, incl. 2 attachments	101 405

## Algilock Cleaner® Plus

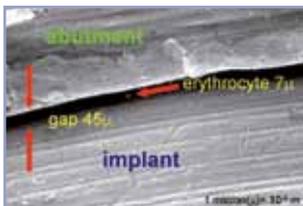

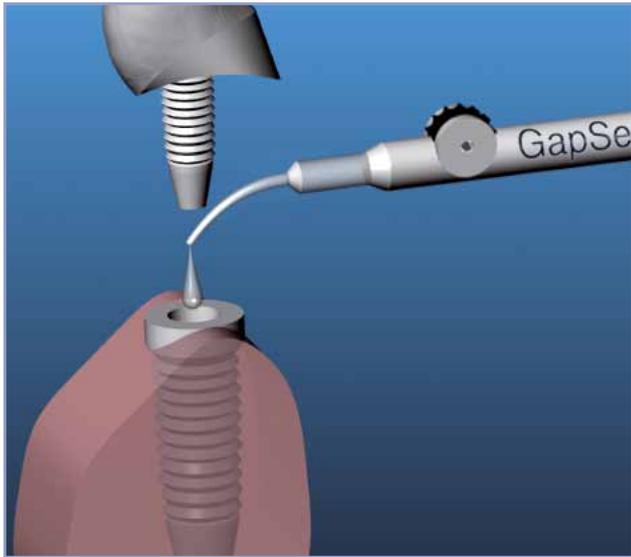

### Alginate remover

- Cleaning in dipping bath without mechanical impact, no ultrasound, no scratching
- Decomposes the organic structure of the impression material, no aggressive or caustic effect, no corrosion
- Even after several cleanings impression trays do not tarnish
- Bio-degradable and pH-neutral, phosphate-free, pleasant smell
- For approx. 500 trays

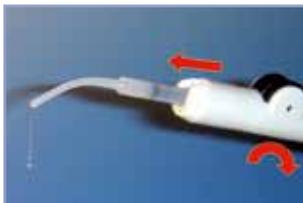

Easily removes plaster and alginates from impression trays, instruments and spatulas. No laborious and time-consuming cleaning, simply add 50 g to 1 l of warm water and leave for approx. 15 – 30 minutes. May also be used in an ultrasonic unit. Not suitable for aluminum trays.

Video

After removal of the closure cap, GapSeal can directly be applied by simply turning the transport screw.

Immediately after the application, the implants are generously loaded with GapSeal. The implant gets sealed airtight with GapSeal, leaving no hollow spaces, by inserting the locking screw.

## GapSeal®

### The decisive weapon against peri-implantitis

- Seals implant gaps and hollow spaces
- Durably stops infiltration of germs into the hollow spaces
- Eliminating risk of re-infection of peri-implant tissue
- Effectively avoids a main reason for peri-implantitis
- Successful over 20-year clinical study of the University Düsseldorf, Germany
- Quick and easy handling and application

Article description	REF
GapSeal Set (applicator with 10 Tips)	152 041
GapSeal Refill Pack (10 Tips à 0,06 ml)	152 040
Applicator separately	152 042

#### Gap Sealing against Peri-implantitis

Out of manufacturing constraints, gaps and hollow spaces between implant and superstructures are inevitable in all compound implants.

These gaps can be minimized depending on fabrication precision. However, they are never completely bacteria-proof and in an open connection with the bacteria-, fungi- and virus settled oral cavity. The spectrum of germs settling in the hollow spaces consists of a large quantity of gram-negative, mostly anaerobic bacteria, as it is the case with peri-implantitis. These humid and warm implant interiors offer an ideal milieu for the growth of bacteria and partly also cause fungi and virus affection. Already 20 years ago, at the Clinic for Oral and Maxillofacial Surgery of the Heinrich-Heine University, Düsseldorf, Germany under the direction of Prof. Dr. Dr. Fritzemeier it was begun to find a solution to this problem. The gap between abutment and implant averages „only“ 45 microns, whereas most of the relevant germs have a size of between 0.5 microns and 4 microns. Based on extensive studies and tests, a material was developed sealing all capillary gaps and interior spaces of the compound implant bacteria-proof.

GapSeal is based on a special silicone matrix ingredient composition, which creates a barrier effectively preventing infiltration and colonization by bacteria. It is used immediately after inserting the implant with the first fixing of the locking screw. Therefore, the implant is durably protected against colonization by bacteria, viruses and fungi from the very beginning. GapSeal is most easy in application as the material is offered in small portion carpules, together with a special applicator.

GapSeal seals the gaps and hollow spaces, which are to be found in every compound implant, thus effectively and durably avoiding colonization of germs into these hollow spaces and eliminating the risk of re-infection/microleakage of the peri-implant tissue, one of the main reasons for peri-implantitis.

#### Properties of GapSeal:

- Lasting, hermetic protection, no formation of micro-gaps
- Prevents micro leakage
- Ideal for assembled implants
- Gentle to the tissue
- Highly viscous, transparent material (silicone matrix)

## Mira-Dapp

### Disposable dappen container with blue tray

- Economic use of expensive materials
- Protection against evaporation and light
- With the paintbrush submerged, bond does not set for up to 24 hours
- Hygienic, neat and space-saving
- Several liquids can be placed on the tray at the same time
- Applicator stands upright in the container
- Blue tray is autoclavable

Article description	Content	REF
Mira-Dapp, Set	250 pcs. + 1 tray	605 465
Mira-Dapp, Tray separately		605 466

## Apply-Tips®

### Fine application tips

- For precise application of liquids and pastes
- Bendable ends for hard-to-access areas
- Economic use of expensive materials (such as bondings, medicaments, etc.)
- Acid-resistant against bonding and other materials
- Hygienic dispenser box for single removal
- Available in three sizes

With paper seal

With injection marking

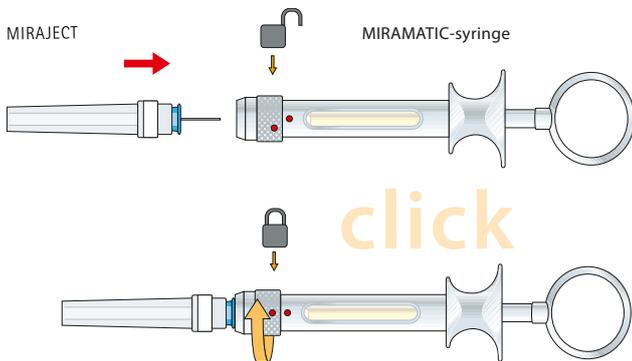

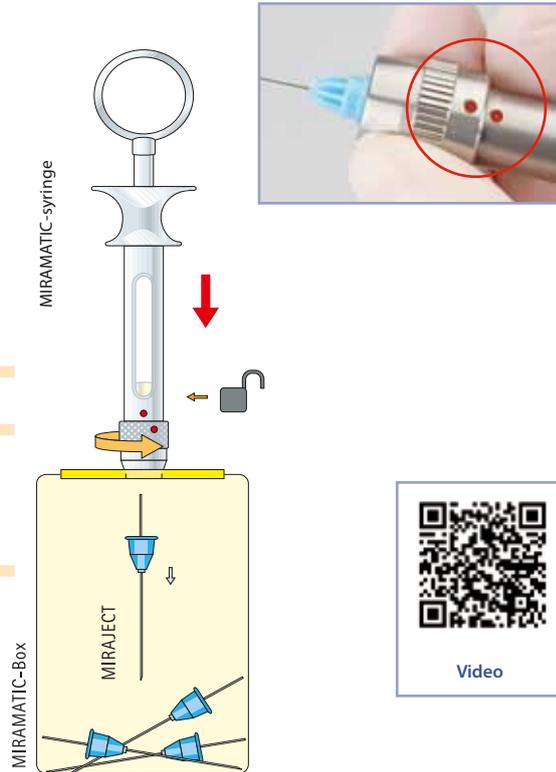

## Miramatic® Holder

- Syringe sits upright in its own protective cover
- 200 g of safe stability
- Stainless steel, autoclavable

plopp

## Miramatic®

### Innovative safety syringe system with single-handed operation

- “No-touch system”: No risk for the dentist and assistant to come into direct contact with blood- and saliva-contaminated needles
- No risk of infection with HIV, hepatitis and other germs because of “re-capping” or disposing used canulas
- No injury risk from used canulas
- No screwing on and off necessary, more than 70% time saving

Further information on [www.miraject.de](http://www.miraject.de)

**The Miramatic Safety-Set:** 1 syringe, 3 boxes, 1 table fixing device and 1 Pack of Miraject-needles (Typ 30 / 23)

Article description	REF
Set with 1-ring syringe	355 471
Set with 3-ring syringe	355 469
Set with T-handle syringe	355 473

“The “No-touch-system” has convinced me. In our practice we have been familiar with the risk of getting into contact with blood- and saliva contaminated needles for many years and have reduced the risk of infection to a minimum. Following the injection, the safety stand ensures that the syringe is on hand and can be disposed of contact-free + stored safely after use.”  
Dr. Gabriele Schmeichel, Lückstedt

**Makes it easy to adhere to the EU-Directive 2010/32/EU regarding prevention of injuries caused by sharp/pointed instruments.**

## Miramatic®-Box

### Patented disposal box

- With automatic lid, opening itself at the push of a button
- Disposal of used canulas and other products contaminated with blood and saliva, such as scalpels, disposable syringes and suchlike
- Absolutely safe storage due to firmly fixed lid with safety lock
- Opening for unlocking the Miramatic syringe and for disposal of the Miraject canulas
- The opening can be enlarged gradually by pushing out the flap
- Table fixing device for firm placing of the box

Article description	REF
5 boxes, 1 table fixing device	355 468

## Fit® Rubberdam Perforating Template

For marking the holes in rubber dam prior to perforation

- Solid plastic

Article description	REF
Fit Rubberdam Template, 15 x 15 cm	355 318

## Fit® Rubberdam Clamp Forceps

For smooth grasp of the clamps

- Arbitrarily fixable
- No tilting of clamp
- Length: 17 cm

Article description	REF
Fit Rubberdam Clamp Forceps	355 333

## Fit® Rubberdam Punch

For perfectly punched, tearproof perforations

- Movable punching pin constantly using the whole cutting border
- Made of stainless steel
- Length: 16 cm

Article description	REF
Fit Rubberdam Punch	355 321

## Fit® Rubberdam-Latex

Made of natural latex rubber

- Medium: extra smooth-running due to approximal contact
- Heavy: for a stronger retention of the gingiva
- High tensile strength due to constant quality
- Durability one year minimum, if stored in a cool place
- Green sheets (15 x 15 cm), powdered on one side

Article description	Thickness	Content	REF
Fit Rubberdam-Latex, medium	0.18–0.23 mm	36 sheet	355 335
Fit Rubberdam-Latex, heavy	0.23–0.29 mm	36 sheet	355 336

For an easier and quicker insertion of the Fit Rubberdam-Latex in case of close contact points we recommend using our **Miradont-Gel** (page 33) as lubricant.

## Fit® Rubberdam Eliot Separator

Specifically for widening of interdental spaces for a short time

Article description	REF

- For approx. 30 applications

Article description	REF
2 ml syringe with 3 canulas	152 284

Further application needles: Miraject Endo Luer (see page 13)

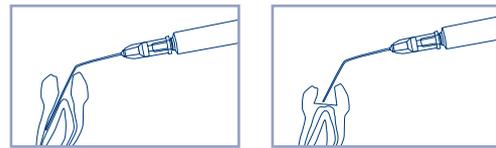

## Calci-Line®

### Ready for use calcium hydroxide paste (45 %)

- For direct capping after opening of the pulp or in case of pulptomy, indirect capping in case of caries profunda
- For temporary root canal fillings and root canal disinfections
- High pH-value (over 11.5) for antimicrobial effect, radiopaque
- Economic and easy-to-measure
- Appropriate underneath all underfilling and filling materials
- Incl. curing-aid cap

Article description	REF
2 ml syringe with 2 canulas	152 283

Further application needles: Miraject Endo Luer (see page 13)

## Cyano Fast / Cyano Retarder

### Acrylic adhesive for extra-oral work

- **Fast:** normally curing bonding, adhesion and mixing fluid
- **Retarder:** slowly curing bonding, adhesion and mixing fluid

Article description	Content	REF
Cyano Fast	4 bottles with 5 g each	152 261
Cyano Retarder	4 bottles with 5 g each	152 262

## Cyano Pipettes

### Dispersations pipettes

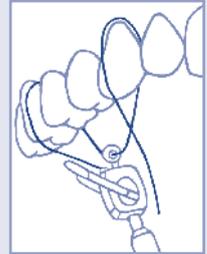

Article description	Content	REF
Cyano pipettes	100 pcs.	152 268

## Crown Click® De Luxe

### Mechanical crown and bridge remover

- Very effective due to impulse wave
- Just place the instrument tip underneath the crown rim and release the "click"
- Instrument tip in three designs with additional loop (optional)
- Fast, efficient and easy crown and bridge removal
- High-quality, mattfinished stainless steel
- Autoclavable

Article description	REF
Set: instrument with tips (Nr. 1 – 3)	452 205
Tip No. 1 (long)	452 206
Tip No. 2 (short)	452 207
Tip No. 3 (short+angle)	452 208
Loop tip No. 4 (incl. adapter)	452 209
Loop tip replacement wire, 2 pcs.	452 210

## B-EX® / C-EX®

### Gripping clamp for removal of bridges and crowns

- High-quality chromium-nickel alloy
- No tilting possible
- B-EX with pointed tip for bridges
- C-EX with broad tip for crowns
- Autoclavable

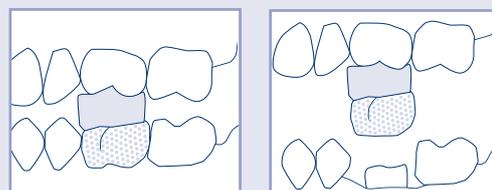

Article description	REF
Bridge remover B-EX	355 203
Crown remover C-Ex	355 204

## Gripit®

### Bite cushion with high adhesion force

- For removal of temporary work
- Heat bite cushion, put in place and remove temporary work by instructing the patient to open their mouth jerkily
- Safe and very convenient for the patient
- Two pieces hygienically packed

Article description	Content	REF
Gripit	50 (25 x 2) pcs.	605 283

## Occlu® Spray Plus

### High-quality green occlusion spray

- To mark contact points by spraying directly onto the occlusal surfaces
- Micro powder layer for highest accuracy
- Plastic nozzle for extra fine spray mist
- Powder layer can easily be removed with water
- Economic in consumption

Article description	Content	REF
Aerosol can green	75 ml	554 205
Aerosol can green	50 ml	554 211

## Contact Gauge

### For checking interdental contact points

- Holder made of stainless steel
- Strong stainless steel contact tapes
- In three color-coded thicknesses

Article description	Content	REF
Set with holder and 1 tape each		355 306
Replacement band separately, blue	ø 0.05 mm	355 307
Replacement band separately, red	ø 0.11 mm	355 308
Replacement band separately, yellow	ø 0.15 mm	355 309

## Artiholder

### Miller Forceps

- Artiholder in straight form
- Ideal for posterior teeth
- Stainless steel

Article description	REF
Artiholder	355 300

## Amalgam Well

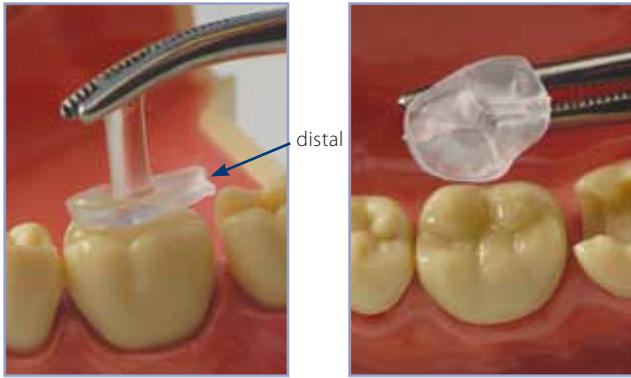

### Amalgam depot made of stainless steel

- Funnel-shaped for easy pick-up
- Allows pick-up of amalgam for without skin contact
- Stable and non-slip (123 g), autoclavable

Article description	REF
Amalgam well	355 000
Del-Ject, plastic amalgam carrier, 90° angle	355 036

Del-Ject

## Occlu®-Print

### Fissure stamp for composite fillings

- Easy, good and fast occlusal modulation of lateral composite fillings
- No more manual modulation of the occlusal surfaces
- Translucent plastic, may be disinfected
- Polymerization by placing the lamp onto the stamp
- Molar and premolar disposable stamp in 16 different sizes and shapes, separated into upper/lower jaw and right/left jaw
- Each stamp with related FDI-reference number

Article description	REF
Intro kit with 32 stamps (16 x 2 pcs.)	605 494

Refills with 10 pcs. each, available separately in 16 sizes on request.

## Mirafit Core

### Fiber-reinforced core build-up material

- Dual-hardening hybrid composite with specially treated glass fiber
- Contains fluoride and is radiopaque
- Grindability similar to dentin
- High pressure resistance, also underneath full ceramic or composite restorations
- For cementation of posts or as restoration material for prepared teeth
- Easy application, as the material is directly mixed in a mixing canula
- Additional light polymerization guarantees complete curing
- Available in 4 colors: A2, A3, blue, opaque white

#### Assorted Set:

5 syringes with 4 ml / 8.6 g per color, incl. 25 mixing tips and 25 oral tips

#### Refill Set:

2 syringes with 4 ml / 8.6 g per color, incl. 25 mixing tips and 25 oral tips

Article description	Farbe	REF
Mirafit Core, Set		152 230
Mirafit Core, Refill	A2	152 241
Mirafit Core, Refill	A3	152 242
Mirafit Core, Refill	blue	152 244
Mirafit Core, Refill	Opacous white	152 245

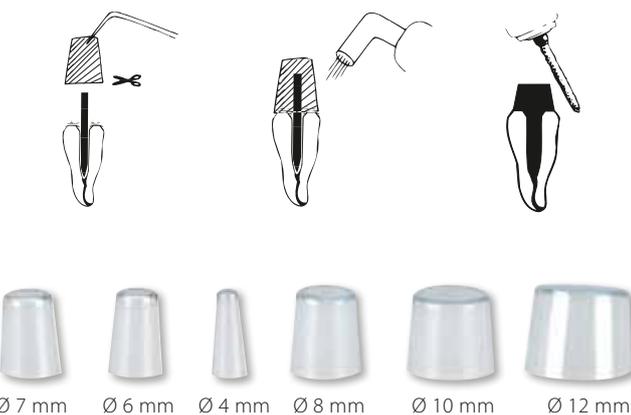

## Mirafit® BC

### Plastic caps for core build-up

- Time-saving as modelling of the cured core is simplified
- Cost- and material saving
- Minimized risk of accidental damage to neighboring teeth
- Standard shape of caps suits any core build-up
- Transparent and light conducting caps in six sizes
- Thin-walled caps can simply be adapted with scissors
- May basically be used with any commercial root canal post system and core build-up composite

Article description	REF
Kit of 72 with 12 caps each in 6 sizes	605 470

Refill kits with 10 caps per size on request

## Mirafit® 3in1

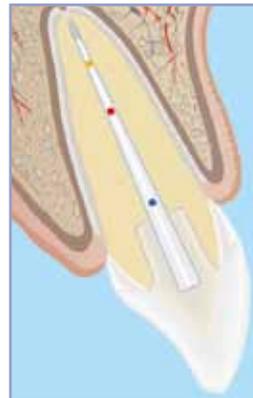

### Build-up post made of white glass fiber

- Biocompatible material, physical properties similar to dentine
- Thread-free, gentle to the tooth substance, radiopaque
- Cone-shaped, size may be adjusted individually with the aid of three color marks on the post:
- Yellow mark: Post length 2.9 mm, approx. ISO size 60
- Red mark: Post length 8.25 mm, approx. ISO size 80
- Blue mark: Post length 17.5 mm, approx. ISO size 110 (overall post length 35 mm)

Article description	REF
Kit: 6 posts, 1 depth reamer and 3 root canal reamers	356 074

#### Refill packs

Article description	Content	REF
Posts	6 pcs.	356 080
Depth reamer	3 pcs.	356 081
Root canal reamer yellow, small	3 pcs.	356 082
Root canal reamer red, medium	3 pcs.	356 083
Root canal reamer blue, large	3 pcs.	356 084

## Mirafit® Carbon and White

### Thread-free reconstruction posts made of carbon and glass fiber

- Physical properties of the post similar to those of dentine and reconstruction composite
- No risk of corrosion due to biocompatible metal-free material
- Preparation very gentle to the tooth substance
- Extra-long and easy to shorten post, can easily be removed by means of a bur
- Available in 3 conventional diameters:
- L2 = Ø 1.20 mm    L3 = Ø 1.35 mm    L4 = Ø 1.50 mm

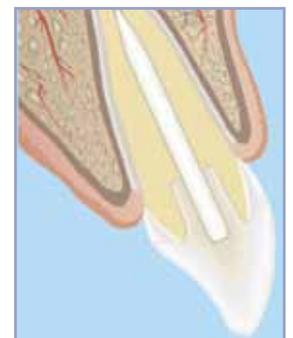

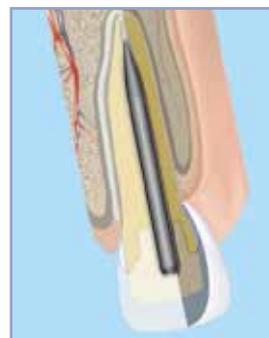

#### Mirafit Carbon

- Post visible on X-rays due to radiopaque cement

#### Mirafit White

- The white color of the post meets high esthetical requirements
- Radiopaque

Article description	Content	REF
Mirafit Carbon kit	3 x 6 posts and 1 reamer each	356 040
Mirafit Carbon, post L2	Ø 1.20 mm, 6 pcs.	356 041

## Endo N2®

### Root canal cement on zinc oxide – eugenol basis

- Inexpensive and fast alternative for more than 50 years
- Can be used separately or as a sealer in connection with Gutta Percha points
- Easily to be rotated into the canal
- Good adhesion to canal walls
- Definite, not absorbable filling with a chalk-like hardness after curing
- Antimicrobial effect gradually decreasing with curing
- Consisting of powder and liquid for mixing

Article description	Content	REF
Set	10 g powder, 6 g liquid	152 027
Powder separately	10 g	152 028
Liquid separately	6 g	152 029

"In more than 8,800 EDP-registered vital extirpations in the period from 1985 – 1999 the treatment needed more than one session to be finished in only 22 cases (5 own, 17 assistant). I have not counted thousands of vital amputations and milk tooth endos."

Dr. Robert Teeuwen

Interview

X-ray control

## Desmoclean®

### Instruments for gentle root planning

- For curettage of the root surface in deep pockets, for bi- and/or tri-furcation and in the approximal area
- For removal of tightly adhesive granulations
- For removal of concrement (subgingival plaque)
- For periost ablation during flap surgery
- Non-cutting hexagonal head – as gentle as a manually operated device and as fast as diamonds
- At least 30 – 50 periodontias can be treated per instrument
- To be used with 7,000 – 10,000 rpm with light pressure and water spray

Desmoclean original size (two shaft lengths and two head sizes)

## Miraclean-Implant Black

### Cleaning instruments for implants

- Black colored instruments for great contrast
- Double-ended, in 4 special shapes
- Autoclavable and chemiclavable plastic material

Article description	REF
Set of 4 instruments	355220
Instrument separately: No. 1, Side tooth	355221
Instrument separately: No. 2, Luniatschek + scaler	355222
Instrument separately: No. 3, Anterior tooth	355223
Instrument separately: No. 4, Abutment	355224

## Miraimplant®

### Parallel drilling aid for implants according to Dr. König

- Applicable for any implant system
- Parallel reciprocal implant adjustment
- Optional selection of implant positions in the horizontal according to surgical criteria
- Optimization of the prosthetic result
- Autoclavable

Article description	REF
Kit (incl. 1 pilot drill and 2 guide pins)	356 100
Pilot drill 2 mm	503 500
Guide pin 1.9 mm	356 101
Guide pin 2.0 mm	356 102
Guide pin 2.1 mm	356 103
Guide pin 2.2 mm	356 104

## Miraglu®

### Tissue adhesive for sealing of skin and mucosa injuries

- Excellent adhesive characteristics on humid tissue
- Cyano acrylate liquid in monomer form, polymerizes when getting into contact with water/body fluid
- Thin, absolutely dense film fixes wound borders tightly due to short setting time
- Immediate pain relief because of wound-sealing
- Wounds heal fast and without complications
- No scarring, no need to remove stitches
- Suitable to cover up minor cuts

Article description	REF
Tube with 3 g, 20 fine dosing pipettes and 2 mixing dishes	155 015

Before treatment

After treatment with Miraglu

## Reso-Pac®

### Adhesive periodontal dressing based on cellulose

- To be applied directly to wounds, sutures and pressure spots
- Keeps out bacteria and assists the healing process
- Remains for up to 30 hours and is self-dissolving
- Ideal for protection of wounds and sutures in implantology, periodontics, following extractions, in orthodontics and prosthodontics
- Ideal as a medicament carrier
- Patient-friendly as it stays soft, is odorless and neutral in taste

Article description	Content	REF
Reso-Pac	25 g	155 011
Reso-Pac value pack	5 x 25 g	155 010
Reso-Pac single portions	50 x 2 g	155 014

## Miradont®-Gel

### Micro nutrient gel for oral medical provision

- Beneficial healthy climate due to physical changes of the oral flora
- Ideal after surgery or periodontal treatments, in aphthae, lichen, florid herpes lesions and denture pressure spots
- Accelerates tissue regeneration
- Contains no alcohol, saccharin, menthol or preservatives
- Neutral in taste

Article description	Content	REF
Miradont-Gel	15 ml	155 000

## Spandex®

### Cheek and lip retractor

- Allows for a free view and working field
- Ideal for treatment of anterior teeth
- Made of non-reflecting plastic
- Autoclavable

Article description	Content	REF
Regular	2 pcs.	605 454
Mini (children)	2 pcs.	605 455

## Spandex®-Vertical

### Lip retractor

- Expands patients mouth in vertical direction
- For treatment at the gingival border of anterior teeth
- Autoclavable

Article description	Content	REF
Spandex-Vertical (2 x medium, 2 x small)	4 pcs.	605 211

## Mirahold®

### One sided cheek retractor

- With long handle for a free working field
- Useful, e.g. for injections
- Convenient for the patient
- Autoclavable

Article description	Content	REF
Mirahold regular	2 pcs.	605 450
Mirahold bambino	2 pcs.	605 451

## Mirahold® -Block

### Elastic bite blocks for mouth opening

- Plastic block to keep the mouth open reliably
- The set includes a special cheek retractor
- Ideal for longer treatments and anxious patients
- Autoclavable

Article description	REF
Set with 12 bite blocks, 6 small and large each and 2 cheek retractors	605 210
Intro set with 6 bite blocks, 3 small and large each and 1 cheek retractor	605 238
Mini set with 3 bite blocks (small)	605 220
Cheek retractor separately	605 239

## Variator®-Kit

### Disposable treatment set

- Comprises mouth mirror, tweezers and probe
- Big spatula for mixing of cement and filling materials
- Ball head and Heidemann spatula for stuffing
- Practical for home visits, high-risk patients and in emergencies
- All three instruments are sterile and blister-packed as a unit

Article description	Content	REF
Variator-Kit, set with 3 instruments	10 sets	355 441

## Liftbox

### Disinfection box for dental instruments

- By closing the cover, the filled tray submerges into the disinfectant
- Tray with swivel handle for easy handling
- No direct skin contact with aggressive disinfectants
- Acid-resistant plastic
- Dimensions: (WxHxD): ca. 26 x 8.5 x 12cm
- Container content: ca. 1.5 l

Article description	REF
Liftbox	355 140

## Miralay

### High-quality inlay adapter

- Instrument with single rubber inserts and counter metal pin
- Autoclavable

Article description	Content	REF
Miralay set, 2 instruments + 4 bite blocks		355 210
Miralay replacement rubber inserts (cover)	2 pcs.	355 213

Illustration similar

## Matrix-Spanner

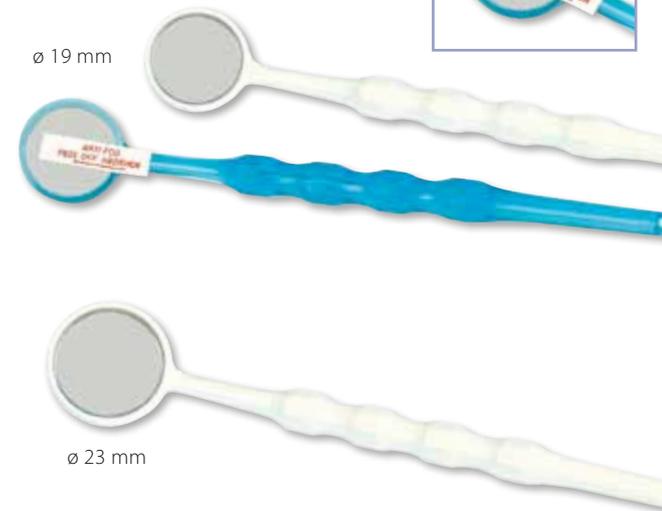

### Matrix retainer "Tofflemire" style

- High-quality stainless steel
- Autoclavable

Article description	REF
Standard universal No. 1	355 043
Angled No. 2	355 047
Junior (short) No. 3	355 048

## Brilliant Anti-Fog

### Disposable anti-fog mouth mirror made of plastic

- With anti-fog coating
- Flat, angled mirror head for access to all areas in the oral cavity
- Ergonomic finger-grip handle
- Each mirror protected with peel off foil and single packed

Article description	Content	REF
White, ø 19 mm	50 pcs.	605 416
Transparent blue, ø 19 mm	50 pcs.	605 417

## Brilliant

### Disposable mouth mirror made of plastic

- Without anti-fog coating
- Available in two sizes, ø 19 mm and ø 23 mm
- Each mirror protected with foil and single packed, 100 pieces

Article description	Content	REF
No. 4, white, ø 19 mm	100 pcs.	605 400
No. 5, white, ø 23 mm	100 pcs.	605 399

## Mouth Mirror Finger-Grip Handle

### Plastic mirror handles

- Autoclavable high-quality plastic
- Non-conducting (e. g. for electro surgery)
- Ergonomic shape, lightweight, 10 g only
- For mirror heads see following product Durotanic

Article description	Content	REF
Mouth Mirror Finger-Grip Handle, red	3 pcs.	355 554
Mouth Mirror Finger-Grip Handle, green	3 pcs.	355 551

## Durotanic® Mouth Mirror

### Rhodium-coated front mirror

- Rust-proof high quality
- Durable, distortion-free, sterilizable
- Small "slimline" head

Article description	Content	REF
Durotanic Mouth Mirror size 4	12 pcs.	355 453
Durotanic Mouth Mirror size 5	12 pcs.	355 454

## Mirodent

### Plastic, disposable mouth mirror

- No misting due to „anti-fog coating“
- Mirror can be removed from the handle and be replaced by a new mirror, reduces waste

Article description	REF
Mirodent, 100 mirrors + 4 handles (one-ended)	605 404
Mirodent, one-ended handle	605 405

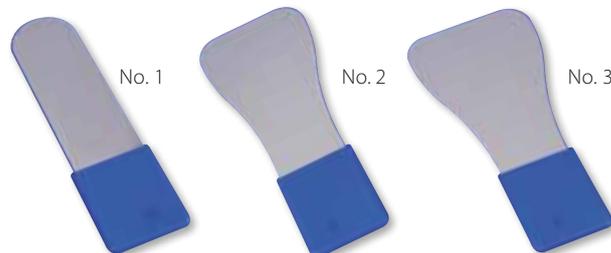

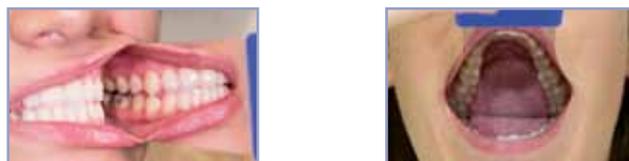

## Reflect-Rhod

### Rhodium-coated metal mouth mirror

- Ideal for distortion-free intra-oral photos
- Extensive rhodium coating on one side
- Sturdy, durable
- With detachable silicone handle
- Autoclavable in the provided fabric bag

Article description	REF
Set with 3 mirrors	355 480
No. 1, separately (40 x 163 mm)	355 481
No. 2, separately (69 x 163 mm)	355 482
No. 3, separately (79 x 163 mm)	355 483
Silicone handle separately (40 x 52 mm)	355 487

## Parallelometer-Mirror

### Mirror with parallel lines

- A proven specialty according to Prof. Böttger
- Fits all popular mirror handles (excluded from scope of delivery)
- Parallel check before imprint
- Autoclavable

Article description	REF
Parallelometer-Mirror	355 470

## Cold-Bag

### Cold compress for pain relief

- Instantly applicable, cools for approx. 30 minutes at ca. 5 - 10 °C
- Develops effective iciness within seconds
- Reduces swellings

Article description	Content	REF
Cold-Bag compresses	10 pcs.	605 501

## Miracold® Plus

### Cooling spray

- Approx. -50°C at the application canula (plastic)
- Orange flavor
- For vitality testing of devital teeth

Article description	Content	REF
Miracold Plus	200 ml	554 213

## Orange Solvent®

### Cleansing solution

- For the removal of impression pastes, zinc oxide cements, dispersion adhesive (stickers, labels) from instruments
- Ideal for cleaning stainless steel
- Surfaces become shiny and are protected
- Fresh orange scent
- Available as liquid and spray

Article description	Content	REF
Orange Solvent liquid	250 ml	554 102
Orange Solvent spray	200 ml	554 201

## Praxipolish® Plus

### Cleansing foam for dental practices

- Removes dirt, dirt rims, stains, etc. without effort
- For devices, plastic and wooden surfaces, etc.
- With ultra-hygienic features
- Tested by the neutral German "Institute for Hospital Hygiene and Infection Control" (IKI Gießen)

Article description	Content	REF
Praxipolish Plus	400 ml	554 208

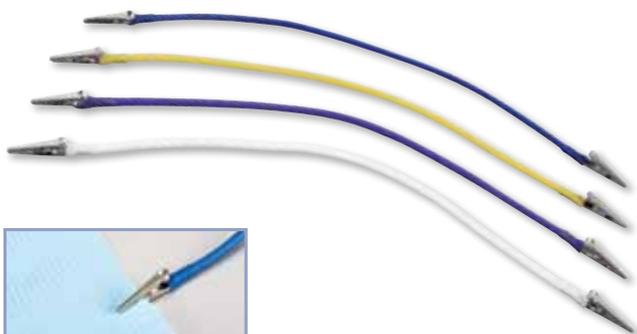

## Astro Clean®

### Spray disinfection

- Particularly for disinfection of (Hager iSpec) protective glasses (page 67)
- No damage to the anti-fog coating
- Generally usable for all surfaces in the medical field
- Bactericidal, fungicidal and virus-inactivating (HBV and HIV)

Article description	Content	REF
Astro Clean	250 ml	554 301

Total length 42 cm

## Miraclip

### Napkin holders

- Made of autoclavable rubber material with stainless steel clips

Article description	REF
Miraclip, blue	605 240
Miraclip, yellow	605 241
Miraclip, violet	605 242
Miraclip, white	605 243
Set of 4, 1 of each color	605 228
Set of 8, 2 of each color	605 229

## Napkin Holder Big

### Elastic spiral napkin cord

- Length: approx. 29 cm

Article description	REF
Napkin Holder Big, white	605 277

## Flexbrush

### Autoclavable nail brush

- Excellent for the cleaning of hands before and after treatment
- Extra long, hard-wearing bristles on the bottom
- Short bristles on the top
- Autoclavable – meeting hygiene requirements

Article description	REF
Flexbrush	605 254

## Fit-N-Fix

### Disposable, hygienic napkin holder

- Easy to use: Remove protective foil and stick to paper napkin
- Stretch material made of soft silk like fiber for patient comfort
- Works with all bibs
- Easy handling and hygienic disposal
- Two flowery colors

Article description	Content	REF
Fit-N-Fix, blue	200 pcs.	605 249
Fit-N-Fix, pink	200 pcs.	605 250

## Miramask®

### Disposable mask made of lightweight fleece material

- Hygienic and very good value for money

Article description	Content	REF
Miramask	100 pcs.	605 412

## Cotton-Clip

### Cotton roll holder

- Holds cotton rolls securely in place for a dry working field
- Available in light plastic or solid, autoclavable stainless steel

Article description	Content	REF
Cotton-Clip I, plastic	100 pcs.	605 350
Cotton-Clip II, stainless steel	8 pcs.	605 351

## Cottoroll

### Cotton roll dispenser

- Hygienic, dry storage
- Quick and easy to access – simply open the drawer
- Drawer refills automatically
- Convenient top-loading function
- Stable, nonslip

Article description	REF
Cottoroll	355 132

## Chirurgo-Suc I

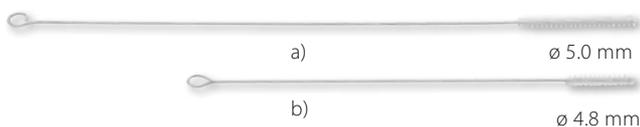

### Sterile disposable surgical aspiration canula

- Extremely long (20 cm) for a free working field
- Fits all hoses with adapter
- Transparent plastic
- Individually sterile sealed
- Canula diameter: 2 mm

**Set with 10 pieces incl. Mirasuc Adapter**

(REF 254 130 and 254 132 - see page 41)

Article description	REF
Chirurgo-Suc I	254 000

## Steri-Suc-Tube

### Surgical aspiration canula

- Made of high-quality, transparent, honey-colored plastic
- Safe when getting into contact with activated electrodes (e.g. p. 64) or rotating instruments
- Autoclavable
- Fits to saliva ejector (6 mm) without adapter
- Ultra-light, approx. 3 g weight
- Incl. one Chiru-Cleaner brush (No. 23, REF 605 215)

Article description	Content	REF
Steri-Suc-Tube	10 pcs.	254 060

## Chiru-Cleaner®

### Cleaning brushes for surgical canulas

Article description	Content	REF
a) Chiru-Cleaner 23, 23 cm long	12 pcs.	605 215
b) Chiru-Cleaner 16, 16 cm long	6 pcs.	605 217

## Mirasuc® Brush

### Cleaning brush for aspiration canulas

- Bendable, ideal for the cleaning inside of canulas
- For all aspiration canulas with ø 11 mm and 16 mm, length 18.5 cm

Article description	Content	REF
Mirasuc Brush	6 pcs.	605 216

## Skalpell-Ex / Pin-Clipper

### Special tweezers with dual function

#### Special tweezers with pin

- For holding crowns and bridges
- Locking function

#### For removal of scalpel blades

- Easy and safe removal of blade due to lever action

Article description	REF
Skalpell-Ex / Pin-Clipper	355 449

**We recommend the Miramatic-Box for the disposal of contaminated scalpels (see page 16)**

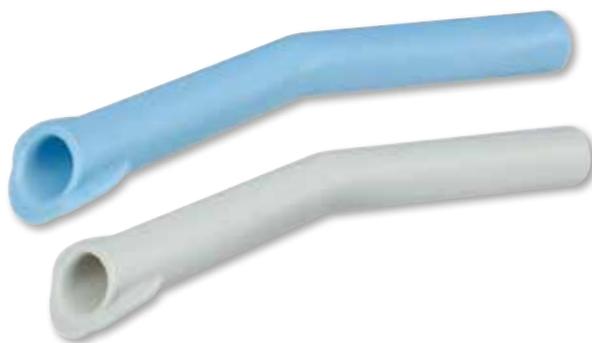

## Pelotte Plus

### Autoclavable plastic aspiration canula

- Very convenient for the patient, with round head
- Also ideal in pediatric dentistry
- ø 11 mm, length 10.5 cm
- Autoclavable

**Set with 10 pieces, including 1 adapter (from ø 11 mm to 16 mm)**

Article description	Content	REF
Pelotte Plus, blue incl. 1 adapter	10 pcs.	254 025
Pelotte Plus, gray incl. 1 adapter	10 pcs.	254 026
Pelotte Plus Set, 5 pcs. of each color, incl. 1 adapter		254 029

## Pelotte-Aspirator

### Disposable plastic aspiration canula

- Canula with round head
- ø 11 mm, length 10 cm

**Box with 50 pieces, including 1 adapter (from ø 11 mm to 16 mm)**

Article description	Content	REF
Pelotte-Aspirator, white	50 pcs.	254 022
Pelotte-Aspirator, orange	50 pcs.	254 023

## Mirasucto®

### Longer disposable plastic aspiration canula

- With square head
- ø 11 mm, length 14 cm

**Box with 50 pieces**

Article description	Content	REF
Mirasucto, white	50 pcs.	254 020
Mirasucto, orange	50 pcs.	254 021

## Mirasuc® Absorbo

### Aspiration canula with pelotte

- Optimal aspiration when using (sand-) blaster units
- Removable pelotte funnel made of soft silicon
- Easy cleaning and autoclavable
- Canula ø 16 mm, length ca. 10 cm, Pelotte ø 24 mm and length 34 mm

Article description	Content	REF
Mirasuc Absorbo	3 pcs.	254 052

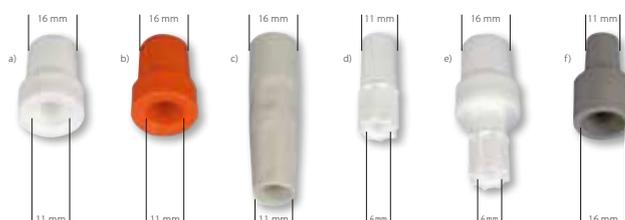

## Mirasuc® Adapter

### Extensions and connecting pieces for aspiration canulas

Article description	REF
a) white, from 11 mm to 16 mm	254 130
b) orange, from 11 mm to 16 mm	254 131
c) gray, autoclavable, finger-grip handle extends the canula from 11 mm to 16 mm	254 133
d) white, from 6 mm (salvia ejector) to 11 mm	254 132
e) Combination of adapter a) and d), from 6 mm to 16 mm	
f) Gray, adapter reduction from 16 mm to 11 mm	254 105

- Made of plastic, for all conventional suction units
- Extension from 6 mm to 16 mm (e) possible by combination of adapters (a) and (d)

## Mira-2-Ton® Solution

### Plaque test

- Older plaque is revealed in blue, newer plaque in pink
- Proven in the dental practice for years
- Motivating quality control for dental assistant and patient
- Erythrosine- and gluten-free
- Discolorations can be removed by brushing teeth

Article description	Content	REF
Mira-2-Ton Solution	60 ml	605 655

For further Mira-2-Ton products see page 86.

## Mira-Clin P®

### Approved prophylaxis paste with coarse granulation

- For professional tooth cleaning in the dental surgery
- Low abrasion with optimal cleaning effect
- Pleasant fruit taste
- Free of fluoride and menthol

Article description	Content	REF
Mira-Clin P	250 g	605 656
Box with 200 dishes, 2 g each and stainless steel finger ring II		605 658
Finger ring II, separately		605 444

## Mira-Clin® hap

### Prophy Paste with hydroxylapatite

- For professional tooth cleaning and polishing
- Supports treatment of hypersensitive tooth necks
- Removes coatings and discoloration gently while building a protective layer on teeth and tooth necks
- Cleaning particles change size from coarse (cleaning) to fine (polishing)
- With toothfriendly Xylitol
- Pleasant mint taste
- Free from gluten and phthalate

Article description	Content	REF
Mira-Clin hap	75 ml	605 654

## Dapp-a-Way

### Disposable dappen dishes

- Set with 1,000 plastic dishes

Article description	Content	REF
Set incl. 1 finger ring	1000 pcs.	605 445
Finger ring separately		605 446

## Prophy-Ring

### Stainless steel holder for dappen dishes

- Practical metal ring for attaching to the finger
- For chairside application

Article description	REF
Prophy-Ring	605 657

Rotoprox

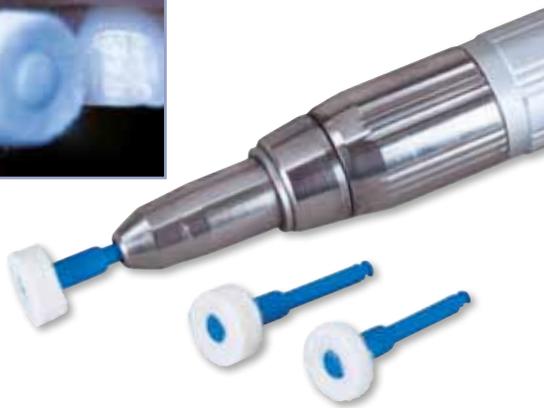

## Clean-Jet® Powder

### Special cleaning powder

- Highest cleaning effect and very low abrasion by extra fine granulation
- Pleasant lemon flavor
- Easy powder feeding by dosing bottle

Article description	Content	REF
Clean-Jet powder	400 g	605 380

## Compo Blitz

### Diamond impregnated natural felt wheel

- Buffs composites, ceramic and porcelain to a high luster finish
- Polishes in 15 sec., friction temperature <30 °C
- Mounted for C.A.
- Wheels of ø 9 mm in 2 sizes:
  - 1.5 mm / thin
  - 3 mm / thick

Article description	Content	REF
Set assorted, 6 each	12 pcs.	503 086
Thin 1.5 mm	12 pcs.	503 087
Thick 3 mm	12 pcs.	503 088

## Compo-Brush

### Application Brushes

- Ideal for etching and bonding agents, pit and fissure sealants, calcium hydroxides, Mira-2-Ton, medicaments, varnish, etc.
- Brushes available in 2 thicknesses:
  - No. 10 - fine, white
  - No. 11 - micro-fine, brown (not shown)
- Compatible with Mouth Mirror Finger-Grip Handle (see page 36)

Article description	Content	REF
Brushes No. 10 (fine)	100 pcs.	605 231
Brushes No. 11 (micro-fine)	100 pcs.	605 232
Mirodent, one-ended handle	1 piece	605 405

## Mira Clean

### Mouth rinsing tablets for dissolving

- Refreshing, slightly antiseptic, cooling
- The little extra service for the patient
- Ideal for prophylaxis treatments
- Pastilles dissolve completely within max. three minutes
- In two pleasant flavors: mint and thymol

Article description	Content	REF
Mint (green)	1,000 pastilles	605 504
Thymol (pink)	1,000 pastilles	605 505

250 ml

500 ml

## Dosing Bottle

### Transparent squeeze bottles

- With fine jet tip and delivering tube
- For fine dosing of liquids
- In two sizes

Article description	Content	REF
Dosing Bottle	250 ml	304 405
Dosing Bottle	500 ml	304 406

## BD-Steribox

### Container for disinfection

- Useful for small parts, such as burs, diamonds, etc.
- With opening in the lid
- With removable sieve for rinsing the content
- Both versions autoclavable
- Measures: Plastic: Total height approx. 12 cm,  $\varnothing$  approx. 8 cm  
Metal: Total height approx. 5 cm,  $\varnothing$  approx. 9 cm

Article description	REF
BD-Steribox plastic	355 139
BD-Steribox metal	355 138

## Clip-Clap

### Stainless steel mesh

- Ideal for ultrasonic cleaning
- To safely scald sensitive small parts
- 45 mm diameter of ball-shaped strainer

Article description	REF
Clip-Clap	304 140

## Twin-Pipette

### Pipette with two chambers

- For measuring out the exact dosage of drops or for thorough rinsing
- Front chamber = drops, rear chamber = rinsing
- Pipette end can be cut off for increased flow, e.g. for subgingival rinsing

Article description	Content	REF
Twin-Pipette	100 pcs.	605 352

## Strip Holder

### Stainless steel matrix band holder

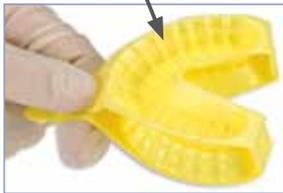

- For fixing of matrix bands
- With special serration and spring

Article description	REF
Strip Holder	605 337

With level indicator

## Mirafluor®-Tray

### Application tray for fluoride gel

- Made of light, flexible plastic
- With level indicator
- Double tray for simultaneous treatment of maxilla and mandible
- In yellow color, contrasting any gel

Article description	Content	REF
Mirafluor-Tray, small	50 pcs.	605 620
Mirafluor-Tray, medium	50 pcs.	605 621
Mirafluor-Tray, large	50 pcs.	605 622

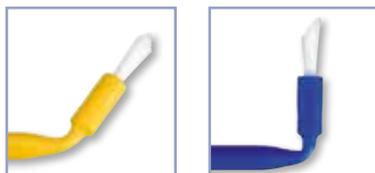

**mirafluor-k-gel  
for children**

## mirafluor®-gel / k-gel

### Fluoride gel for intensive tooth decay prophylaxis

- Increases the acid resistance of the enamel
- Decreases plaque formation
- Accelerates the remineralization
- mirafluor-gel with 1.23 % fluoride
- mirafluor-k-gel with 0.6 % fluoride is particularly suited for children aged 6 or older

Article description	Content	REF
mirafluor-gel, mint	250 ml	605 800
mirafluor-gel, strawberry	250 ml	605 801
mirafluor-k-gel, cola	250 ml	605 802
mirafluor-k-gel, strawberry	250 ml	605 803

## Mirafluorid®

### Fluoride varnish on emulsion basis with 0.15 % fluoride

- Free of solvents
- For precise application, can also be applied in a humid environment
- Fluoride concentration clearly lower than in comparable varnishes: 0.15 % fluoride
- Aqueous polymer layer allows fluorides to diffuse and is decomposed by the saliva without causing any problems

Article description	REF
Mirafluorid, 5 ml bottle and 20 Mirabrush brushes	605 810
Mirabrush brush (yellow/pointed), 100 pcs.	605 460
Mirabrush brush (blue/flat), 100 pcs.	605 461

Mirabrush brush see page 11.

## Pick up Stick

### Adhesive application aid

- Bendable stick with adhesive wax tip
- Ideal for quick and precise pick-up of crowns, inlays, veneers

Article description	Content	REF
Pick up Stick	30 pcs.	605 423

## PerioMarker

### Oral health rapid test for an early detection of parodontitis and for risk diagnosis

- Preventive: Indicates acute risk of parodontitis before conventional diagnostics
- Painless: Gentle, diagnosis after only 10 minutes
- Delegable: Screening, monitoring and follow-up by dentals assistance
- Successful: For sensitization, motivation and patient recruitment
- Interdisciplinary: To avoid secondary damage for patients with cardiovascular symptoms, diabetics, rheumatic patients, women wishing to become pregnant or heavy smokers
- Parodontal atrophy is detected by measuring the enzyme aMMP-8 (active matrix-metalloproteases)

Article description	Content	REF
PerioMarker	2 separate tests	605 850

Scientific studies on request.

## Myzotect®-Tincture

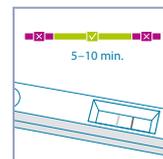

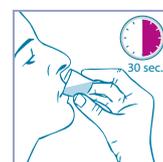

### Myrrh-Benzoin-Tincture to calm and relieve stressed oral mucosa

- After periodontal or surgical treatment
- Myrrh (tissue-firming and nurturing effect) helps in aftereffects of dental and gingival treatments
- Benzoin is germicidal and antiseptic, while aloe supports the tissue with a nourishing care
- Contains neither antibiotics nor corticosteroids
- No burning after application, sticks to the mucosa for a long time due to its syrupy consistency
- For more than 100 applications

Article description	Content	REF
Myzotect-Tincture	5 ml	155 008
Myzotect-Tincture	50 ml	155 005

#### For the patient's use at home

Article description	Content	REF
Myzotect-Tincture	5 x 5 ml	155 006
Myzotect-Tincture	10 x 5 ml	155 007

Ideal in combination with Reso-Pac (see page 33)

## Protectoray

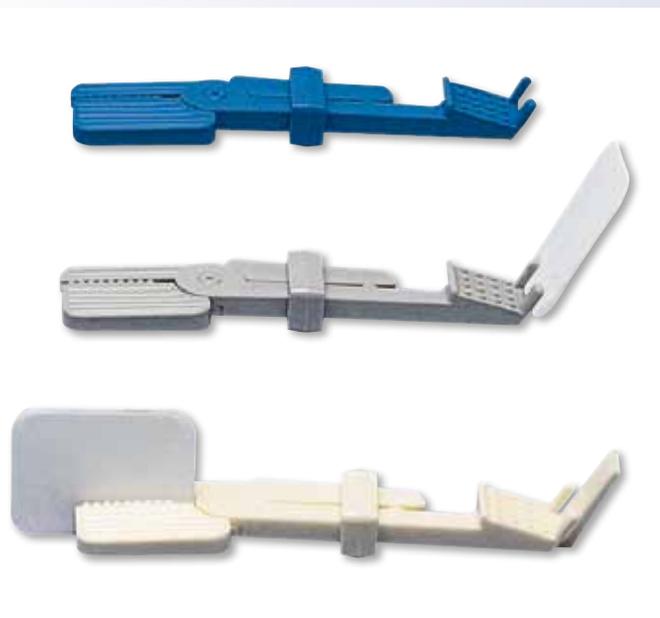

### X-ray shield

- X-ray protection shield for the patient
- Safe by 0.5 mm lead lining
- In compliance with DIN 6813
- Approved by the German Institute of Radiation Safety, Munich, Germany
- Convenient for the patient – no heavy lead apron
- Easy exchange of handle

Protectoray wall mount

Article description	REF
Shield and handle	656 127
Wall holder separately transparent	656 128
Wall holder separately blue, silver or white	on request
Handle separately, exchangeable	656 701

## Emmenix® Film Holder

### Hygienic X-ray film holder

- Film is easily positioned in the patient's mouth without the use of a finger (no irritation of mucosa, no gag reflex)
- Precise, as no bending of the film, no distortion of the picture
- For pictures of anterior teeth and molars, especially wisdom teeth
- Autoclavable, high-quality, unbreakable plastic
- In three colors: white, blue, gray

Article description	REF
Pack with 3 holders, assorted	656 300

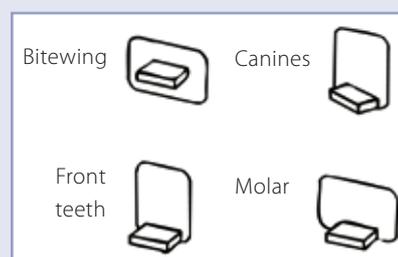

## Emmenix® Flap

### Soft bite X-ray cushion

- Special foamed material with high adhesion
- Flap can be fixed to the film optimally and anywhere
- Ideal for bitewing, front, premolar and molar X-ray pictures

Article description	Content	REF
Emmenix Flap	500 pcs.	656 303

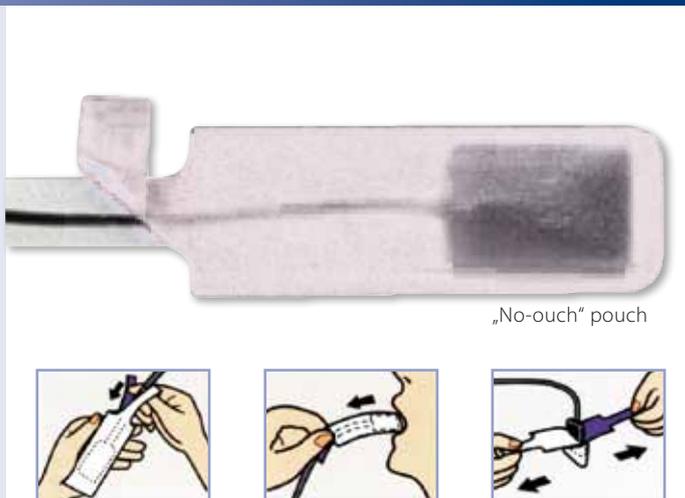

## Salibag

### Protective pouch for X-ray sensors

- Sensor gets inserted in the protective pouch and placed in the patient's mouth for radiography
- Protects the patient, the practice personnel and the sensor against humidity, saliva and blood
- High patient comfort by soft material
- Rounded edges, no risk of irritation
- Size: 36 x 105 mm

Article description	Content	REF
SLB-L, for CCD Sensor S/M	320 pcs.	656 232

## Panlescope

### X-ray film viewer

- For any kind of X-ray picture
- Excellent illumination
- Can be installed as wall or table model
- In accordance with DIN 6856

Article description	Size	REF
Panlescope	23 x 40 cm	656 130

## Röntgomarker

### X-ray marking pen

- Waterproof, special white ink
- Very exact, hard and thin tip

Article description	REF
Röntgomarker	656 322

## X-Ray Stain Remover

### Liquid for stain removal

- Highly effective, long-approved
- Removes X-ray chemicals, iodine, rust, etc.

Article description	Content	REF
X-Ray Stain Remover	100 ml	656 220

## OXYSAFE Gel Professional

Gel for the treatment of periodontitis and peri-implantitis

- Active oxygen gel
- Speeds wound healing (without peroxides or free radicals)
- Reduction of pocket depth
- Simple and precise application
- Free of antibiotics and free of CHX

## OXYSAFE Liquid Professional

- Active oxygen mouthwash
- Speeds wound healing (without peroxides or free radicals)
- Free of antibiotics and free of CHX

Article description	REF
OXYSAFE Intro Kit, 3 x 1 ml Gel, 3 x 250 ml liquid + 3 x application canulas	155 040
OXYSAFE Gel, 3 syringes à 1 ml (without application tips)	155 041
OXYSAFE Liquid, 250 ml	155 042

First direct application of the gel into the dental pocket

Patient continues treatment at home

Before treatment

Treatment

After treatment

### How does OXYSAFE Professional work?

OXYSAFE Gel Professional contains the patented Ardox-X® technology, based on active oxygen (hydrocarbon-oxoborate complex) which becomes activated by contact with the skin or mucous membrane. This complex acts as a matrix which releases the active oxygen in the area to be treated. This immediately reduces the number of Gram-negative bacteria. Furthermore, the oxygen-enriched microenvironment has a proven positive effect on the treatment of inflamed gums.

Substances harmful to the body, such as hydrogen peroxides and radicals are not included. The application of OXYSAFE Gel Professional supports the periodontal regeneration therapy of soft tissue that has been damaged by peri-implantitis. OXYSAFE Professional has both, anti-bacterial and anti-fungicidal properties, and supports the regeneration of inflamed tissue due to its increased oxygen content. It protects the oral flora and causes no cell death in erythrocytes or leukocytes. Neither mucosal cells nor osteoblasts are attacked. The effectiveness of OXYSAFE Professional has been confirmed by independent universities and in many studies.

### What is the difference between OXYSAFE Professional Gel and Liquid?

OXYSAFE Gel Professional is used exclusively by the dentist and gets applied to the gingival pocket. The product is delivered in handy, "ready to use" 1 ml cannulas and is very economical.

OXYSAFE Liquid Professional is a mouthwash used by the patient at home, immediately after treatment as a follow-up. It ensures that enough active oxygen remains in the mouth, maintaining an antibacterial effect and supporting the desired wound healing.

# ACTIVE-OXYGEN BOOSTER

## in periodontitis and peri-implantitis

### OXYSAFE Professional

-  Treatment of periodontitis and peri-implantitis
-  Eliminates harmful anaerobic bacteria
-  Active oxygen technology speeds wound healing (without peroxides or free radicals)
-  Free of antibiotics and free of CHX

## Plantana®

### Cream for skin care

- Free of mineral oils and silicones
- Free of artificial colors
- Free of animal-derived ingredients
- Free of synthetic perfumes

#### ALOE VERA for normal and sensitive skin

- Easily absorbed by the skin

\* cannot be assembled post hoc

Patented bulge

Tiltable seat surface backwards and forwards

Height adjustable

## Bambach® Saddle Seat Cutaway

### Ergonomically constructed seat

- With a particularly narrow bulge
- Comfortable for women with narrow hips

The seat is available in various heights to match everybody's height:

Height of gas lift	S	M	L
Body height	up to 1.60 m	up to 1.90 m	over 1.90 m

(Please consider, when ordering)

Article description	Color	REF
Bambach Cutaway	black	460 515

Colors and article numbers upon request

## Bambach® Armrests

### Relieving, particularly during long treatments

- Perfect for long treatments, such as in endodontics and surgeries
- Relieves shoulder muscles
- Swivel-mounted armrest can be equipped post hoc
- Available in two versions:  
Short armrest (length 30cm) Long armrest (length 55cm)

Article description	Length	REF
Armrest, long (bent)	55 cm	460 800
Armrest, short (straight)	30 cm	460 801

Please state the desired color and if the assembling is favored on the right or left side. Color samples available upon request.

## Bambach® Foot Height Adjuster

### Foot operated height adjuster

- Sitting height can be adjusted in an easy and hygienic way, leaving (your) hands free
- Quick change of position
- Perfect for surgeries and long treatments
- Stainless steel
- Suitable for gas lift (stems) large and medium

Article description	REF
Foot height adjuster large	901 239
Foot height adjuster medium	901 245

## Bambach® OP

### Seat particularly for operation theatres

- In correspondence with the hygienic guidelines in operation theatres
- Can be completely disinfected
- Height can be adjusted hygienically, leaving your hands free
- Foot height adjuster
- Top with adjustable tilt angle
- Back pain prevention and elimination
- Top made of polyethylene
- Cradle, gas lift and base made of stainless steel

Article description	Color	REF
Bambach OP	black	460 100

## Bambach® Leather Care Oil

### Intensive care and protection of leather surfaces

- Long-acting, keeps leather surfaces soft and smooth

Article description	Content	REF
Leather care oil	50 ml	554 304

We recommend a cleaning and disinfection prior to using the Bambach leather care oil.

## LaserHF® „comfort“

### Laser and HF technology combination device

- I-Cube design with touch screen control
- Preset programs for all possible applications
- Individual control available additionally
- Highest possible functionality and hygiene
- Touch screen monitor for easy operation and selection of programs

#### LASER:

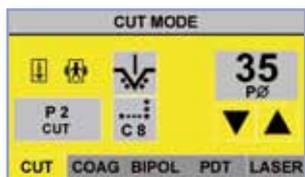

- Disinfection and cleaning of gingival pockets in periodontosis
- Disinfection after root canal preparation in endodontics
- Removal of soft tissue, e.g. in implant surgery in peri-implantitis
- Wound healing, pain relief and desensitisation by Low Level Laser Therapy (LLLT)
- PDT laser (photodynamic therapy)
- Optionally: accelerated bleaching by laser therapy

#### RADIO FREQUENCY:

- Two hand pieces working independently of each other for exchangeable electrodes (color-coded): cutting- and cutting-/coagulation wave (yellow), coagulation wave (blue)
- All type of treatments are possible due to the three forms of frequency: Cutting, cutting with coagulation for haemostasis, coagulation, pulse-driven coagulation to gently weld small tissue pieces
- Automatic voltage control
- hf Bipolar forceps optionally available
- Hand piece and electrodes are autoclavable at 134 °C

	For all applications:		
	Laser	HF	LaserHF
Oral surgery	●	●	●
Periodontology	●	●	●
Implantology	●	●	●
Endodontics	●	●	●
Bleaching	●	●	●
aPDT	●	●	●
LLLT	●	●	●

### Radio Frequency Surgery: Optimal Cutting and Coagulation

#### Technical data:

HF power max. 50 W  
 HF frequency 2.2 MHz  
 Laser PDT: 660 nm/100 mW  
 Laser 975 nm/8 W - cw/pulsed  
 Measures (WxHxD) 30 x 13 x 25 cm  
 Power supply 230V/50Hz  
 HF 2.2 MHz/50 W – monopolar/bipolar  
 Weight ca. 3.5 kg

User report

#### Basic equipment:

2 laser hand pieces (red for 8 W laser, orange for softlaser)  
 1 x fiber tip 200 µm (set of 3) + 1 x fiber tip 320 µm (set of 3)  
 Safety glasses Lambda One (800 – 975 nm)  
 Over-spec Skyline (green, 800 – 975 nm)  
 Over-spec Skyline (blue, 657 – 660 nm)  
 Patient's safety glasses  
 2 HF hand pieces (autoclavable)  
 Set of electrodes (Nos. 40, 2, 13, 15, 31, 33)  
 Neutral electrode, door contact/interlock, foot pedal  
 Instructions for use, medical product journal

LaserHF Standard with 2.5 m glass fiber	452 462
hf Bipolar-Forceps see page 64	

### Diode laser 975 nm/8 W: Parodontology, Endo- dontology and more

### Therapeutic Laser: LLLT, aPDT

## hf1 Surg bipolar

### Universal HF surgery device

- Preset programs for all possible applications
- Additionally offers individual programming
- Standard fitting: connection for bipolar forceps
- Highest possible functionality and hygiene
- Touch screen monitor for easy operation and program selection
- Two individually working hand pieces for exchangeable electrodes (color marked): cutting and cutting/coagulation wave (yellow), coagulation wave (blue)
- Every application is possible due to three frequency forms: cutting, cutting with coagulation for haemostasis, coagulation, pulsed coagulation for gentle welding of smaller tissue particles
- Automatic voltage regulation
- Bipolar forceps optionally available
- Hand piece and electrodes are autoclavable at 134 °C

#### Scope of delivery:

Device with 2 autoclavable hand pieces, foot pedal, set of electrodes (6 pieces: Nos. 40, 2, 15, 13, 31, 33), neutral electrode

hf Bipolar Forceps to be ordered separately!

#### Frequency + power:

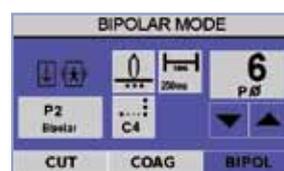

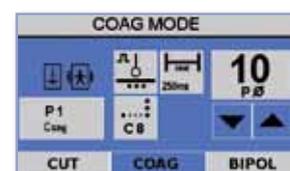

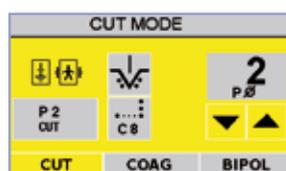

2.2 MHz, max. 50 W  
Voltage: 230 V/50 Hz  
Unipolar and bipolar  
Permanent/pulsed

#### Measures + weights

W 21.5 x H 11.7 x D 25 cm  
Weight 2.65 kg

## hf Surg®

### Low priced and sophisticated radio surgery unit

- For scalpell fine, pressureless incisions- frequency control enables cut and cut/coagulation for haemostasis
- Fast and painless wound healing
- Highest possible functionality and hygiene
- Easy handling of the analog intensity control and frequency switch
- Automatic output management, fail safe mechanism when in contact with metal
- Hand piece and electrodes are autoclavable at 134 °C

#### Scope of delivery:

Device with foot pedal, hand piece, 4 electrodes and neutral electrode

hf Bipolar-Forceps to be ordered separately!

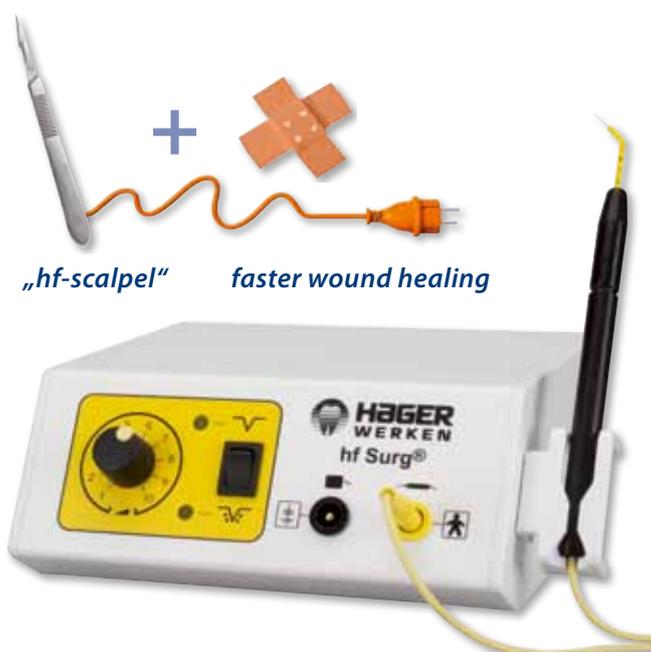

#### Frequency + power

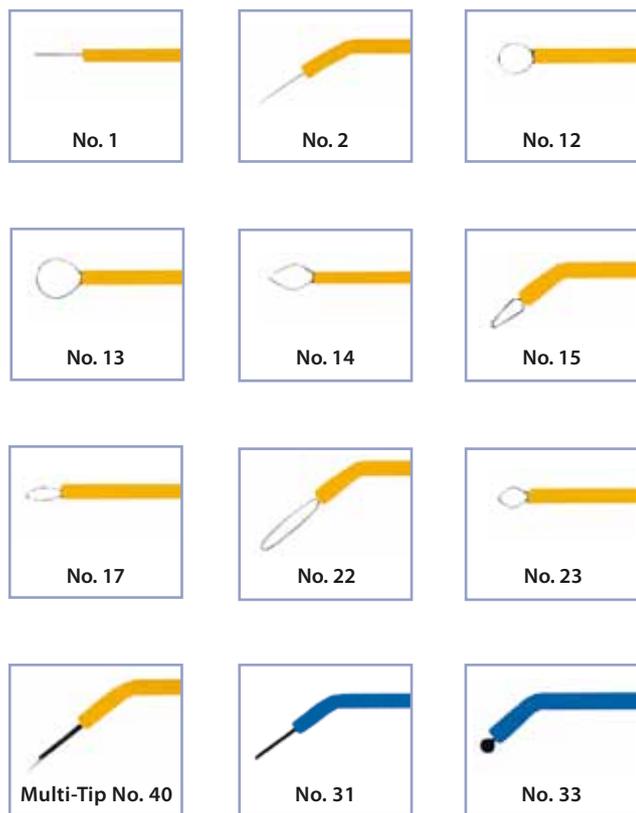

2.2 MHz, max. 50 W  
Voltage: 230 V/50 Hz

#### Measures + weights

Article description	REF
LaserHF Curver, bending tool	452 480
LaserHF Faser Cutter, ceramic blade	452 481

## LaserHF® Bleaching Hand Piece

### Laser hand piece particularly for bleaching

- With integrated optic and 2.50 m long conducting fiber to activate the bleaching material (in-office), e.g. for the Mirawhite Laser Bleaching Gel (REF 607 086)
- Special optic inside the hand piece ensures easy use and homogenous activation of the bleaching material on the tooth surface

Article description	REF
LaserHF Bleaching Hand Piece	452 472

## LaserHF® PDT Solutions

### PDT-solution for disinfection

- Specifically for the treatment with the LaserHF „comfort“
- Photo-activated disinfection of root canals, periodontal pockets and for treatment of peri-implantitis
- For Laser 660 nm, Fiber 320 µm

Article description	Content	REF
LaserHF Endo-PDT solution	3 syringes à 0.8 ml	155 030
LaserHF Paro-PDT solution	3 syringes à 1.2 ml	155 031

## Mirawhite® Laser Bleaching

### Dental bleaching gel for use with diode laser

- Bleaching gel adapted for wave lengths
- For diode lasers 810 – 980 nm
- Two component bleaching gel in a 5g mixing cartridge
- With 35% hydrogen peroxide concentration for highly effective bleaching and brightening of vital and devital teeth

(When using in combination with the LaserHF device, the bleaching gel gets activated with the special LaserHF bleaching hand piece (REF 452 472).

**Set consists of:** 1 bleaching-gel cartridge with 35 % hydrogen peroxide 5 g, 3 mixing tips, 1 syringe with gingiva protector 1 ml, 1 syringe with afterbleach care 2 ml, 2 applicators

Article description	REF
Mirawhite Laser Bleaching	607 086

## laservision

### Laser protective glasses in modern design

- (1) Lambda One: certified safety grade LB4, for Laser 800 – 1064 nm\*, 27 g
- (2) laservision green: over the glasses with the same properties, 51 g
- (3) laservision blue: over the glasses for diode-softlaser 657 – 660 nm\*, 51 g
- (4) Glasses for patient: good fit through flexible frame, high protection levels

Article description	REF
(1) laservision Lambda One	355 630

### Over-the-glasses eyewear with large field of view

- Suitable for works with polymerization lamps (390-525 nm)
- Softpad technology assures ideal, ergonomic fit
- Unobstructed view to the sides
- Temple length adjustable
- Weight: 38 g

Article description	REF
H&W Super Fit UV (OTG)	355 626

**Ingredients:** Sweetener: Xylitol; stabiliser: isomalt; thickening agent: gum arabic; flavor; strawberry extract; acidity regulator: calcium lactate; acidifying agent: citric acid; separating agent: magnesium stearate; colouring agent: beetroot red

## From the practice for the practice

**Dear Dental Practitioners,**

Our miradent products are available through the dental specialist trade, but also in every pharmacy, so that your interested patients can easily purchase them. Of course, the miradent products also represent an ideal complement to the range of your prophylaxis shop. Detailed information on our products can also be found here:

[www.miradent.de](http://www.miradent.de)

## XyliPOP® Lolli

Lollipop sweetened with Xylitol – sugar free!

- With Xylitol and calcium lactate
- Free of aspartame, sorbitol, lactose and gluten
- Motivation and fun within child prophylaxis
- Also great for adults
- Fruity-fresh strawberry flavor

Article description		REF
XyliPOP Lolli strawberry	6 g	630 208
XyliPOP Lolli strawberry	Bonboniere with 25 x 6 g	635 213
XyliPOP Lolli strawberry	Box with 50 x 6 g	635 214

Excessive consumption may produce laxative effects.

## Xylitol Powder

Xylitol – a 100 % natural and healthy sugar substitute

- For sweetening cold and hot drinks, fruit, cereals or for baking
- Ideal for a balanced and healthy diet
- Same sweetening effect as sugar
- Purely natural product, gluten-free and not genetically modified
- 40 % less calories than saccharine

Article description	Content	REF
Xylitol Powder	350 g	630 119
Xylitol Powder	100 x 4 g	630 120
Xylitol Powder (see page 91)	5 x 350 g	635 080

## Aquamed®

Stimulates salivation – available as lozenges and spray

- Reduces mouth dryness
- With protective lysozyme enzyme
- Maintains the oral mucosa
- Plaque-reducing and remineralizing

Article description	Content	REF

## Dipol®

### Proven wetting agent for all phosphate and plaster investment materials

- For an exact and clean pour
- Wax-degreasing, reduces the surface tension of wax
- Dipol builds a molecular bridge between water-repellent wax and investment compounds which can flow bubble-free and accurately adapting to the wax. Clean, smooth surfaces
- It contains no delaying chemicals which can lead to rough surfaces
- Dipol is also suited excellently as wetting agent on impressions of silicone, polyether, etc. for a trouble-free outpouring with plaster
- Free from formaldehyde and alcohol
- Without fuel gas, pumping atomizer with micro fine spray fog

Article description	Content	REF
Set with 1 l bottle + 1 pump bottle (empty)	1000 ml	605 044
Pump bottle, filled	100 ml	605 043
Pump bottle, empty		605 045

## Mirapor®

### Isolates plaster from plaster

- Without any film build-up, not silicon binding
- Precise, very simple separation
- Plaster parts release without aid
- No discoloration of the models
- Surfaces are sealed against dirt and water
- Plaster surfaces can be polished brilliantly with a brush or a cloth
- Without fuel gas, formaldehyde-free

Article description	Content	REF
Set with 1 l bottle + 1 pump bottle (empty)	1000 ml	605 113
Pump bottle, filled	100 ml	605 119
Pump bottle, empty		605 114

## Mirawet®

### Disinfecting mixing liquid for all kinds of pumice powder

- Keeps the polishing compound creamy all day long
- Excellent bactericidal, fungicidal and tuberculocidal effect
- Virus-deactivating, effective against HBV and HIV viruses
- Skin-protecting, pH-neutral
- Biologically degradable and free from formaldehyde

Article description	Content	REF
Mirawet	5 l	554 105

## Alminax

### Aluminum wax

- For absolutely precise bite registration
- Stable wax sheets (3 mm thick)
- High percentage of aluminum keeps the sheets warm very well
- Extremely hard after cooling off
- Just heat up with warm water

Article description	Content	REF
Alminax	250 g	101 301

## Alminax Rite-Bite

### Preformed bite indexes from special aluminum wax

- Very stable due to a reinforcing aluminum section
- Precise bite registration without interfering with the tongue
- Warmed up quickly in 50 °C hot water, Rite-Bite is individually mouldable, cooled off extremely hard and shape-retaining
- 2.5 mm thick bite index for optimal bite registration and precise working
- Also ideal for face bow registration

Article description	REF
Alminax Rite-Bite, box of 24 reinforced and 6 plain indexes	101 302

## Corund SC

### Long-lasting finishing and grinding paper

- In the grain size 80 (very coarse) - 220 (fine)
- The pointed grain is preserved for a long time
- 15 mm wide

Article description	Length	Grain	REF
Corund SC No. 80	25 m	80	605 016
Corund SC No. 100	30 m	100	605 017
Corund SC No. 120	30 m	120	605 018
Corund SC No. 150	30 m	150	605 019
Corund SC No. 180	50 m	180	605 020
Corund SC No. 220	50 m	220	605 021

## Non-Stick®

### Special silicone spray

- Isolation, protection and care spray
- Essential to ensure long service life of articulators
- Condyles, balls and all movable parts are gliding very easily
- For surface isolation against plaster of model holders (norm)
- Prevents sticking of plaster on trimmers, flasks and elastic layers, etc.
- Makes devices hinges smooth-running

Article description	Content	REF
Non-Stick	400 ml	554 206

## Occlu® Spray Plus

### High-quality green occlusion spray

- For marking of contact points by direct spraying onto the occlusion surface
- Micro powder coating for highest accuracy
- Plastic nozzle for extra fine spray mist
- Powder layer can be easily removed with water
- Economic in consumption

Article description	Content	REF
Spray can, green	75 ml	554 205
Spray can, green	50 ml	554 211

## Vernax® S / Vernax® G

### Insulating varnishes for stumps etc.

- Silver- and golden-colored
- Even film of approx. 10 µm
- Indissoluble against isolating means and evaporation
- Heat-proof during the deep drawing and by the use of diving wax
- Quick-drying

Article description	Content	REF
Vernax S (silver), bottle with brush	20 ml	605 065
Vernax G (gold), bottle with brush	20 ml	605 066

## Vernax® Thinner

- Clear liquid to thin Vernax 100, Vernax S., Vernax G as well as Vernax Antagon

Article description	Content	REF
Vernax thinner, bottle with brush	20 ml	605 068

## Vernax® 100

### Insulating varnish, 100% of fine silver for stumps etc.

- Absolutely steady film of 8 – 10 µm (1 layer)
- Can also be applied in several layers
- Indissoluble against all isolating agents and evaporation
- Heat-proof during the deep drawing and by the use of diving wax
- Quick-drying
- Can be cleanly removed with acetone
- Recommended for full ceramic inlays and crowns, etc. (e.g. Empress, Ivoclar)

Article description	Content	REF
Vernax 100, bottle with brush	20 ml	605 063

## Vernax® Colloidal Graphite

### Dark graphite in liquid form

- With integrated brush easy to apply
- Solder does not flow over the graphite limitation
- No lunker building within the joint
- Makes telescope and conical crowns move smoothly
- Diluteable with water

Article description	Content	REF
Vernax Colloidal Graphite, bottle with brush	20 ml	605 069

All Vernax products come with an integrated brush at the inside of the sealing cap.

## Mirapont®

A pale, highly precise special acrylat for stumps, hard plastic models and single teeth

- Very thin and slightly fluent material
- Both liquids (components A and B, relation 1:1) are mixed within 30 sec.
- Can be poured into silicone, alginate, reversible hydrocolloid and thermoplastic
- After 90 min. it can be sawed, milled and polished

Article description	REF
Mirapont 500 g Content: 250 g liquid A, 250 g liquid B, 2 dosage bottles A and B, 200 ml Agent Plus, 50 g Silifit, 5 measuring cups, 1 shaker with pouring spout, 2 big mixing spatulas, 5 small mixing spatulas, one-way gloves	203 010
Mirapont 1,000 g Content: 2 x 250 g liquid A, 2 x 250 g of liquid B, 2 dosage bottles A and B, 200 ml agent plus, 50 g silifit, 5 measuring cubs, 1 shaker with pouring spout, 2 big mixing spatulas, 5 small mixing spatulas, one-way gloves	203 011

## Mirapont® Agent Plus

- Isolates Mirapont against waxes
- Isolates polyether and polysulfide materials against Mirapont

Article description	Content	REF
Mirapont Agent Plus	200 ml	203 016

## Mirapont® Silifit

- Special block-out material, kneadable

Article description	Content	REF
Mirapont Silifit	250 g	203 015

## Praxipol PS

Pressure polymerization tank

- Approx. 4 l content
- For hot and cold polymerization
- Incl. inlet valve, pressure gauge and safety valve (GS/TÜV approved)
- Nonstick layer inside to avoid corrosion
- Weight approx. 2.5 kg only

Article description	Length	REF
Praxipol PS		401 400
Additional hose with coupling, 2 m	2 m	401 401
Additional hose SP with ball valve, 2 m	2 m	401 402

## Mirabol®

### Green flexible mixing bowls

- Easy to clean
- For alginate, plaster, etc.
- Flexible material of first-class quality
- Available in three sizes/heights

Article description	ø	Height	REF
No. 1 large	12 cm	9 cm	304 331
No. 2 x-large	13 cm	11 cm	304 332
No. 3 jumbo	17 cm	13 cm	304 333
Plaster Spatula RS			304 314

## Flex-O-Bol

### Classic, dark green alginate mixing bowl

- Easy to clean, flexible
- For alginate, plaster etc.
- Available in four sizes

Article description	ø	Height	REF
No. 1/4 small	8 cm	5,5 cm	304 320
No. 1/2 medium	10,5 cm	7,5 cm	304 321
No. 1 large	12 cm	9 cm	304 322
No. 2 x-large	14 cm	11 cm	304 323

## Algimix

### Alginate mixing device

- Reliable, solid stainless steel body, maintenance-free
- Minimal time exposure
- Electronically controlled, even stirring movement mixes powder and liquid to an absolutely homogeneous bubble-free alginate mass
- High-quality, durable mixing bowl made of flexible silicone
- Stirring speed adjustable in two steps

#### Technical data

Voltage:	230 V
Power consumption:	100 W
Fuse:	1.25 A
Size incl. bowl (W x H x D):	13,5 x 23 x 20 cm
Weight with (without) bowl:	3.7 kg (3.5 kg)

Article description	REF
Device with bowl and spatula	452 045
Bowl only	452 046
Spatula only	304 317

## Mirator® 2000E

### Electronically adjustable vibrator

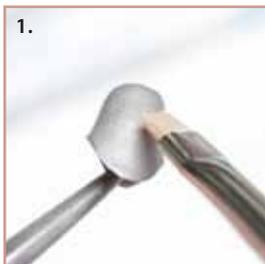

- Continuously variable to up to 6,000 vibrations/min.
- Sturdy and powerful
- Worktop available separately upon request

#### Technical data

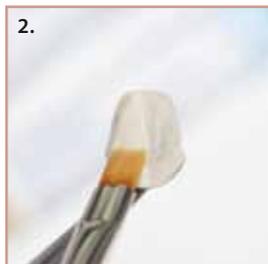

Worktop:	13 x 15 cm
Voltage:	230 V – 50/60 Hz
Power consumption:	max. 200 W
Safety fuse:	1 A
Weight:	3.5 kg

Article description	REF
Mirator 2000E	401 350

1. Application of Carat Biopaque Base Paste (first layer)

2. Application of Carat Biopaque Shade Paste (second layer)

## Carat® Base Paste

### Excellent bonding to metal and porcelain

- Wide CTE (Coefficient of Thermal Expansions)
- Range between 13.9-15.1 x 10<sup>-6</sup> K<sup>-1</sup>(25 - 600 °C)
- Compatible with 99% of all high-fusing precious and non-precious base alloys
- Ultra thin (0.15 mm) and even opaque layer with outstanding covering power
- Highly economic - exact dosage lasts for 150 - 200 crowns
- Easy-to-use and ready-to-use

Article description	Content	REF
Base Paste separately	2 ml	604 407

## Carat® Biopaque®

### Crystal powders range

Powder crystals give a unique surface roughness as well as natural light reflection. Depending on the tooth color light and dark powdering crystals are used. Crystals powder transparent is used to achieve the desired surface roughness, they give the ceramic a refraction of light very similar to natural teeth. Both can use the especially designed collecting bowl to avoid loss of excess particles.

Benefits of Carat Biopaque and Crystal system:

- Safe and easy handling
- Thin and even layer
- Economical use
- Easy individualization
- Natural light refraction
- Ready-to-use
- Excellent bonding
- Optimal appearance of any ceramic
- Useable for almost any alloy and porcelain

Firing schedule

Article description	Content	REF
Powdering crystal, dark	10 g	604 205
Powdering crystal, light	10 g	604 206
Powdering crystal, transparent	10 g	604 207

## Carat® Ecoline

### Dental ceramic system

Carat Ecoline is compatible with almost any high-fusing precious and non-precious base alloys and especially designed for Thermal CTE of 13.9 - 15.1 X 10<sup>-6</sup> K<sup>-1</sup> (25 - 600 °C). Carat Ecoline features excellent thermal stability and "forgives" little mistakes that may occur in technique or equipment.

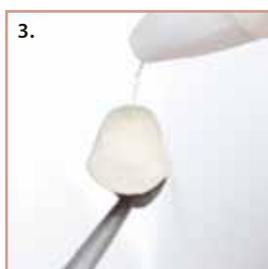

The range contains all essential masses (sixteen detains in VITA colors, five enamels and one overglaze powder). It has become a synonymous for the reproduction of highest-quality dental ceramics system.

- Easy handling
- Time saving
- Excellent compatibility with Vita-Shades

Firing schedule

Article description	Content	REF
Carat Ecoline Dentin A2	55 g	604 531
Carat Ecoline Dentin A3	55 g	604 532
Further colors on request		

3. Application of Carat Biopaque powdering crystals

4. Metal frame after second firing prepared with Carat Biopaque Shade Paste and powdering crystals

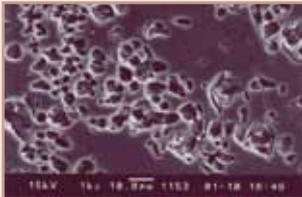

5. First layer with Carat Ecoline Dentin Material

## Carat® Ecoline Enamel

### Enamel material

- Reliable physical characteristics
- Can be combined with the colors, shoulder materials and other accessoires of the Carat system

Article description	Content	REF
Carat Ecoline Enamel, extra light	55 g	604 549
Carat Ecoline Enamel, light	55 g	604 546
Carat Ecoline Enamel, medium	55 g	604 547
Carat Ecoline Enamel, dark	55 g	604 548

Ecoline Dentin porcelain

Ecoline Enamel porcelain

## Carat® Ecoline Overglaze

### Overglaze powder

- Achieves a natural glaze, particularly by permitting adjustment after the actual glaze firing

Article description	Content	REF
Carat Ecoline Overglaze	15 g	604 551

#### Properties of Carat Ecoline Dentin porcelain

Properties	Results
Firing temperatures	opaque: 975 °C dentine: 925 °C
Strength (ISO 6872)	70±10 MPa (range: 60 – 82 MPa)
Thermal expansion coefficient (500 °C)	12,5 ± 0,5 ppm/°C
Dilatometric softening point	642 °C
Glass transition temperature	513 °C
Hardness (Vickers)	570 kg/mm <sup>2</sup>
Microstructure	See REM photos
Leucite content (wt. %)	30 – 35 %
Leucite content	8 – 10 µm
Particle size distribution	Ecoline Dentin mean: 21.6 µm median: 19.4 µm
Bond strength (ISO 9693)	(Legacy) 26 MPa (Excel) 27 MPa (Biocclus 4) 30 MPa (Degudent SF) 39 MPa
Chemical solubility (ISO 9693)	17 µm/cm <sup>2</sup>

## Carat® Modeling Liquid

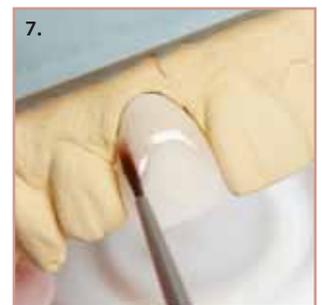

### Modeling fluid

- Fluid for all opaque powder, dentine, enamel and transparent materials, guaranteeing excellent modelling properties and stability

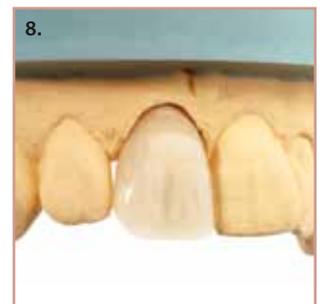

Article description	Content	REF
Carat Modeling Liquid UNF	100 ml	604 217

6. Crown totally covered with Carat Ecoline Dentin and Enamel Material

7. Application of the Carat Glaze material

8. Finished crown after the glaze firing

## Balance® Articulator

### THE classical Non-Arcon articulator

- Precise, functional working device for complete and partial dentures as well as for crown and bridge works
- Worldwide the standard-Non-Arcon articulator
- Available in 2 construction heights: 95 mm, 105 mm (measurements without base plate)
- Joints and parts made of stainless steel
- Torsion-resistant and free access to the model
- Extendable by numerous accessories as for example facial curve, foundation scales, calotte
- Mounting plates optionally available
- The balance with 20°, 30° or 40° condyles is available with 0°, 10° or 15° incisal plate

#### Technical data:

Condylar inclination 25°  
 Incisal table 5°  
 Bennett angle 0° bis 25°  
 Intercondyle distance 100 mm

#### Scope of supply:

Articulator, incisal table, incisal pin, 2 mounting plates, rubber bands, allen key

Article description	REF
Balance 95	203 201
Balance 105	203 295

## Balance® Facebow

### One hand facebow with fast-lock

- For fast and precise cast transfer for the Balance / Balance De Luxe
- Easy handling as the joints can be fixed by hand
- Optimal adjustment to the Frankfurt Horizontal plane by a new type of horizontally and vertically adjustable Glabella support
- The transfer part with bite fork impression can immediately be transferred into our articulators (without facebow)
- An exact three-dimensional model assignment can be achieved in the articulator

#### Scope of supply:

Scissor bow and Glabella support  
 Transfer part and bite fork  
 Balance adapter set

Article description	REF
Balance Facebow 95	203 228
Balance Facebow 105	203 330

## Balance® De Luxe Articulator

THE reliable articulator with individually adjustable condyle orbit inclination

- Individually adjustable condyle orbit inclination
- For individual preparations in full dentures as well as for crown and bridge technique
- Available construction height: 105 mm (measurement without mounting plate)
- Joints and parts made of high-grade steel
- Torsion-resistant and free access to the model, also from behind
- Extendable by numerous accessories as for example facebow

### Technical data:

Condylar inclination -10° to + 70°  
 Incisal table 5°  
 Bennett angle 0° bis 25°  
 Intercondyle distance 100 mm

### Scope of supply:

Articulator, incisal table,  
 incisal pin, 2 mounting plates,  
 rubber bands  
 allen key

Article description	REF
Balance De Luxe 105	203 320

## Balance® Mounting Plates

Aluminum with screw thread

- Fits to Balance / Balance De Luxe, also for Atomic F and Combitec A

Article description	REF
Mounting Plates, 2 pcs.	203 204

## Koni-Cast

Conical cast rings

- Made of high quality stainless steel
- Bases also available in special silicone and a flexible multi base
- X1 small: dia. top 32 mm, bottom 30 mm, height 55 mm
- X3: dia top 50 mm, bottom 48 mm, height 55 mm
- X6: dia top 67 mm, bottom 65 mm, height 55 mm
- Bigger shapes on request

Article description	REF
Koni-Cast, X1	304 031
Koni-Cast, X3	304 033
Koni-Cast, X6	304 034

## Miracast

Model former

- With vertical retention marks inside
- Inexpensive, in three sizes

Article description	Size	REF
Miracast UK small	80 x 60 x 15 mm	203 066
Miracast UK medium	85 x 65 x 15 mm	203 067
Miracast OK small	75 x 60 x 15 mm	203 065
Miracast OK medium	80 x 61 x 15 mm	203 068
Miracast OK large, fits for upper and lower impressions	100 x 80 x 15 mm	203 069

Weight 300 g

## Bravo Marathon Portable III

### Powerful, portable micromotor

- Allows for working everywhere, ideal for home visits
- Infinitely variable motor with backward- and forward running (4,000 – 35,000 r/min)
- Lithium-ion accumulator for longer working times of up to 12 hours
- Recharging time approximately 5 hours
- Only for extraoral works
- Suitable for every standard hand and contra-angle piece with plane shaft without intra-spray and without light conductor
- Can be attached to the belt, space-saving

Article description	REF
Bravo Portable III with belt bag and recharger	452 130

Unit comes without HP or CA.

For standard hand pieces and contra-angles see page 111.

## Bravo Portable II

### Strong portable micro motor

- Allows working without wallsocket, ideal for home visits (weight 300 g)
- Infinitely variable motor with back- and forward-running (0–25,000 rpm)
- Rechargeable, long-lasting battery recharging time six hours, up to eight hours pure working time
- For extraoral works only
- Suitable for any standard hand and contra-angles piece with plane shaft (not included in delivery ) without intra-spray and without light conductor
- Can be attached to the belt, space-saving

Article description	REF
Bravo Portable II with belt bag and recharger	452 102

## Bravo TD III

### Collector-free AC motor (3-phase-motor)

- Small device for drilling, polishing, etc.
- Fits all conventional hand pieces and contra-angles
- Speed infinitely and precisely variable from 1,000–30,000 rpm
- Forward and reverse rotation, with optic indication
- Solid, low-maintenance plastic body
- For extraoral use only

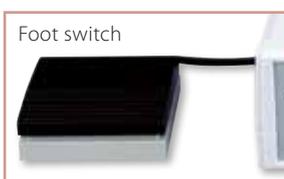

#### Technical data

Supply voltage:	230 V
Motor capacity:	max. 40 W
Size (H x W x D):	80 x 205 x 153 mm
Weight: approx.:	2.5 kg

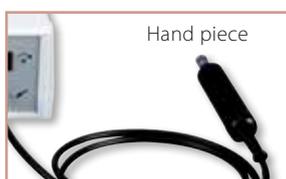

Article description	REF
Bravo TD III	452 106

Collector-free AC motor

Foot switch

Hand piece

## Speed Labolight®

### Universal light polymerization device

- For all light-curing dental materials
- Nanometer spectrum 320 – 550 nm
- Optimized light mixture for a homogenous and safe curing
- Circular arrangement of eight rod-shaped lamps around a turntable (dia. 14 cm) and one halogen lamp
- Interval turntable for an evenly light impact and curing
- Adjustable from one second to 99 minutes, protection against overheating, polymerization temperature in the chamber does not exceed 40 °C
- Durable (approx. 1,000 hours), easy-to-exchange lamps
- Acoustic signal indicates end of polymerization
- Operating hours counter

#### Technical data

Supply voltage:	230 V, 50 Hz	<b>Size and weight</b>	(W x H x D): 25 x 29 x 24 cm
Power consumption:	225 W	Weight:	7 kg
Fuse:	1 x 2.5 A	Turntable: ø	14 cm
Lamps:	8 x 9 W T1 (white light) 4 x 9 W T8 (UV-A) 1 x 150 W (halogen)		

Article description	REF
Unit incl. 13 lamps	401 125

#### Separate single lamp

Article description	REF
T1 (white light) 9W / 71	901 002
T8 (UV-A) 9W / PLS-10	901 003
Halogen	901 004
Set (4 x T1 and T8, 1 x halogen each)	901 001

## Glas Bead Heater

### Device for heating up instruments

- Ideal to obtain anti-fog effect with mouth mirrors or instrument prior to treatment
- Not suitable for sterilization
- Special heating element warms glass beads up to 230 °C and keeps the temperature constant without heating the outer body of the device
- Removable chamber, easy cleaning
- Size (W x H x D): 140 x 130 x 190 mm, chamber ø 50 mm

Article description	REF
Glas Bead Heater incl. 200 g glas beads	452 303
Glass bead refill pack, 200 g	452 304

## Solderfix

### Soldering Aid

- Two ball bearing holding arms for an optimal positioning of the objects to be soldered
- The base plate is equipped with a fireproof ceramic fiber plate
- Measurements: 230 x 152 mm

Article description	REF
Solderfix	304 451

## Blue-Flame 1500

### Handy burner for dental practice and laboratory

- Easy, practical one-hand operation
- Reliable ignition
- Solid freestanding burner, 15 cm only
- Flame temperature infinitely variable from approx. 800 – 1,300 °C, max. burning time approx. 35 minutes
- Refillable with APT gas (not included in scope of delivery)
- Diverse fields of application in household use

Article description	REF
Blue-Flame 1500	401 006

## APT III Burner

### Convenient burner with one-hand operation

- Activation of ignition without having to put the instrument down
- Extra reliable ignition system
- Infinitely variable flame
- Transport securing
- Refillable with APT gas (not included in scope of delivery)

Article description	REF
APT III Burner	401 001

## Kisag Burner

### Gas burner for dental practice and laboratory

- Flame temperature infinitely variable from approx. 750 – 1,150 °C
- One filling for a burning time of 5–6 hours
- With the Swiss SVGW sign (equivalent to the German GS sign)
- Refill with Kisag gas only

Article description	REF
Kisag Burner incl. 400 ml Kisag gGas	401 005
Kisag Gas, 400 ml	605 140

## APT Gas

### Refill gas

- With various adapter tips to refill APT, Miratorch and Blue Flame burners, etc.
- Not suitable for Kisag Burner

Article description	Content	REF
APT Gas	200 ml	605 143

## Miratorch® II

### Handy burner for the practice and laboratory

- Can also be used as table device
- Ergonomic shape ensures save grip
- Blaze drain protection
- Burning temperature 1,300 °C
- Burning time approx. 60 – 70 minutes
- Very light: 220 g
- Diverse fields of application in household use
- Refillable with APT gas (not included in scope of delivery)

Article description	REF
Miratorch II	401 004

#### Still available: Miratorch

Article description	REF
Miratorch	401 010

## Speedo-Clean

### Quiet denture cleaning device

- Esthetic surface cleaning using rotating polishing needles in combination with a cleansing liquid – no material abrasion
- Integrated timer allows for individual cleaning times
- Additional magnet keeps the needles in the container when replacing the liquid
- Autoclavable container

#### Technical data

Weight:	2 kg	Frequency:	50/60 Hz
Output:	35 W	Rotation:	1,700 U/min
Voltage:	230 V		

Article description	REF
Device with container, 50 g polishing needles (ø 0.6 mm) 1 liter of liquid and 1 magnet	401 136
50 g polishing needles, nickel-free stainless steel ø 0.6 mm for dentures	304 014
Speedo-Clean Liquid, 1 liter	554 106
Container with lid (to collect the needles)	355 419
Magnet separately	304 012

## Protho Clean®

### Fully synthetic cleaning product for cleansing and high-gloss polish of acrylic artificial dentition

- Esthetically upgrades the presentation of your prosthetic works
- Removes polishing agent and monomer residues from prosthetic work
- Spray on and leave for a short while before wiping off with a soft cloth
- Pleasant flavor: mint

Article description	Content	REF
Protho Clean	75 ml	554 220

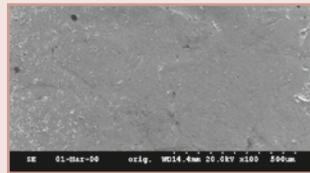

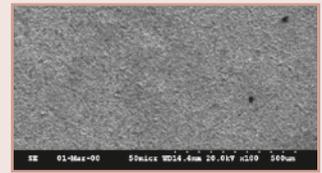

## Airsonic® Mini Sandblaster

### Handy sandblaster

- For roughening of bonding surfaces of crowns, bridges, brackets, posts, etc.
- Thoroughly roughened bonding surfaces for optimal bonding of various materials
- Ideal for all metals and ceramics
- Also suitable for the removal of cement residues from crowns and bridges

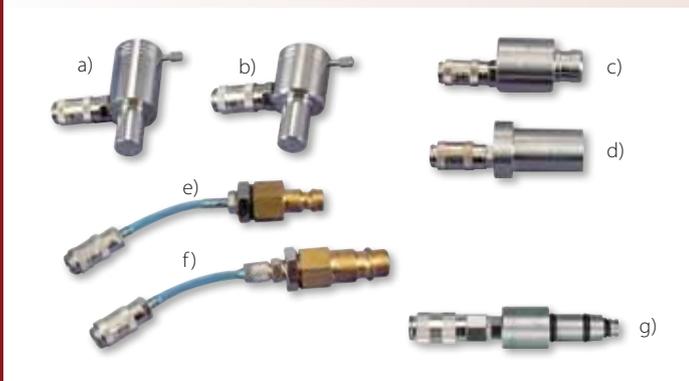

Before sandblasting

After sandblasting

Article description	REF
Sandblaster, standard nozzle 60° and 20 g powder (50 µm)	401 080
Nozzle 60° separately	401 086

## Airsonic® Adapters

Article description	REF
a) Adapter K for direct connecting to Kavo turbine	401 084
b) Adapter S for direct connecting to Sirona titan turbine	401 089
c) Connection to W+H Rotoquick	401 077
d) Bien Air Unifix	401 076
e) Connection to EMS-Box	401 090
f) Connection to lab coupling	401 091
g) Adapter for direct connecting to NSK	401 075

## Airsonic® Absorbo Box®

### Handy absorber box

- Portable absorber box – the abraded material remains in the box and is completely collected in the filter
- Very low-noise and high-performance device
- Solid and durable design
- Problem-free cleaning by removable filter
- No separate aspiration system required
- Ideal for practice and practice laboratory in combination with the Airsonic mini sandblaster (REF 401 080)

#### Technical Data:

Size (W x H x D): 35.6 cm x 22 cm x 37 cm

Weight: only 2.8 kg

Equipment available on request

Article description	REF
Airsonic Absorbo Box	401 082
Replacement filter separately	401 092
Replacement pane available on request	

## Airsonic® Alu-Oxyd

### AL<sub>2</sub>O<sub>3</sub> powder for sandblasting

Article description	Content	REF
Airsonic Alu-Oxide, 50 µm	500 g	605 084
Airsonic Alu-Oxide, 90 µm	500 g	605 086

## Orbatec® Propphy

### Prophylaxis straight hand pieces and contra-angles

- For prophyl cups and brushes with screw and button fixation
- From 0–5,000 rpm
- Fit any standard micro motor with plane shaft
- Autoclavable

Article description	REF
WST PK (button fixed)	452 152
WST PS (screw fixed)	452 153
HST R 4:1	452 159

For Propphy-Angles see page 43.

## Orbatec®

### Standard hand pieces and contra-angles

- Fit any standard micro motor with plane shaft
- Autoclavable

Article description	REF
WST (30 BL) 30.000 U/min	452 150
HST (30 A) 40.000 U/min	452 158

Button fixation

Screw fixation

HST R

WST

HST

## Orbatec® Holder

### Drip off holder for hand-pieces

- For surplus oil collection
- Holds 8 hand or contra angle pieces
- Size: Height approx. 12.3 cm, ø 12.1 cm
- Autoclavable

Article description	REF
Orbatec Holder incl. 5 drip pads	452 160
Refill pack with 20 drip pads	452 161

## miradent Demo Box

Demo box for patient interdental education

Content:

- Pic-Brush IP probe
- Pic-Brush holder
- Pic-Brush brushes (6 pieces each of 7 different sizes)
- I-Prox P holder
- I-Prox P brushes (4 pieces)
- Recommendation pad with 25 sheets

Article description	REF
miradent Demo Box with content	635 026

## miradent Demo Show Case

Portable case for a mobile demonstration of prophylaxis products

- Both within the practice rooms and outside, e.g. at home visits or seminars
- Lockable with variable insert
- Size: 460 x 330 x 150 mm
- Color: silver

Article description	REF
miradent Demo Show Case	AK-1310

## miradent Shopping Bag

miradent shopper

- Every-day carry bag
- Inner compartment can be zipped
- Outer compartment to hold documents
- Size: apprx. 46 x 38cm

Article description	REF
miradent Shopping Bag	WE-0056

# How to Prevent Microleakage in Implants?

Author: Dr. med. dent. Deborah Horch, Düsseldorf, Germany

**Dr. med. dent. Deborah Horch**

- 2006 – 2011 Study of dentistry at Münster University, Germany
- 2012 – 2014 Dental Practice, Korschenbroich, Germany
- 2014 – 2016 education as oral surgeon, OMFS Clinic Essen, Germany
- Completion Curriculum Implantology
- Office for oral and maxillo facial surgery, Meerbusch, Germany

Every colleague working in implantology is familiar with the unpleasant odor when opening the implant body (Fig. 1). The involved bacterial colonization is immanent in all multipart implants, however, it can be prevented by adequate treatment methods. In my practice I would notice a putrid smell when making the implant prosthetics. Usually, this smell occurs upon removal of the gingiva former after a few days and naturally when opening the implant bodies.

This is unpleasant for dentist and patient alike. Moreover, it is no great pleasure for the dentist to explain to the patient that implants are colonized with bacteria and consequently do stink. Prevention of bacterial colo-

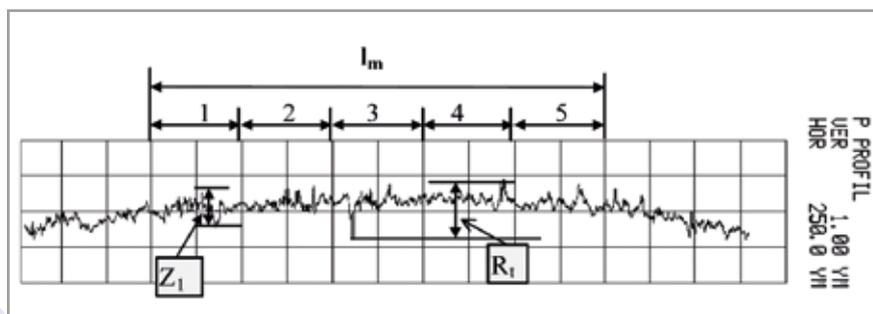

Fig. 2: A surface roughness of more than 1 µm remains in titanium even in case of optimal treatment<sup>[2]</sup>

nization is absolutely desirable for the sake of personal comfort, not to mention medical considerations. When looking for reason and solution, I first contacted the implant makers to get information why implants simply seem to be untight. However, from their side, there is a great silence regarding microleakage and the involved odor development. On the Internet, you see impressive high gloss photos promising an optimal implant fitting, on the other hand, you will not find any information on gap formation between abutment and implant body.

Reality, however, shows that multipart implants always feature gaps with an active liquid and germ exchange from the implant body to the in- and outside, which has been proved as microleakage in many current studies. This is most plausible when looking at an implant construction in more detail.<sup>[1]</sup> Nearly any modern two-piece implant system is made from titanium

and zircon (zirconium). Even with the cleanest polish and most modern production techniques, the surfaces still show deviations of at least 1 micrometer (Fig. 2). This seems to be insignificant. For germs, however, they are large inlets. Manufacture tolerances may also affect these optimal values considerably. Even in case of optimal manufacture, dimensions “equal upon equal” might not fit as the parts have to be stuck into one another. Also conical implants cannot be shut hermetically. In case the abutment is additionally screwed, new gaps will develop in the thread. Capillary forces contribute by providing an active exchange between implant interior and the germ-loaded oral cavity. Mastication once more enlarges the gap considerably, as titanium implants are no rigid bodies reacting elastically under function as shown in Fig. 4 respectively table 1: namely by up to 15 micrometers for Astra or Straumann.

# The Real Aid for Back Pain

Author: Dr. med. dent. Deborah Horch, Düsseldorf, Germany

**Dr. med. dent. Deborah Horch**

- 2006 – 2011 Study of dentistry at Münster University, Germany
- 2012-2014 Dental Practice, Korschenbroich
- Since 2014 education as oral surgeon, OMFS Clinic Essen
- Completion Curriculum Implantology

the lumbar spine is straightened and the body weight is carried by the spine structures. The muscles relax, however, the intradiscal pressure is increased. In plain language – you adopt an unhealthy sitting position.

Moreover, the Bambach saddle seat supports blood circulation of the tissue and the musculature. Furthermore, long and undynamic sitting causes congestions in the venous and lymphatic system leading to a pressure increase, which in the long run may end in an increased activity of the pain receptors. Long sitting decreases HDL (high density lipoproteins) and rises the cholesterol level thus promoting the development of arteriosclerosis respectively thrombosis in the long term (van der Ploeg et al, 2012). For this reason, the working place should be designed as ergonomically as possible in order to guarantee an optimally healthy working position.

The Bambach saddle seat is a clever solution to this problem and in addition it is very practical in handling. The seat is not only adjustable in height, but also the inclination angle can be adjusted individually. By this, the seat keeps the pelvis tilted forward without stress on the knees by the body weight thus avoiding an unhealthy protective position. A sitting position with the pelvis tilted forward provokes the upright posture of the natural lumbar spine curvature thus reducing the pressure to the vertebral disk. Studies with children and rehabilitation patients prove that sitting with the pelvis tilted forward facilitates the function of the upper extremities. A dental study (Ganadavadi et al, 2005) reveals that the failure rate in a sitting position with bent over pelvis is reduced, simultaneously skillfulness is increased.

[www.hagerwerken.de/wp-content/uploads/2018/01/Bambach-Horch-GB.pdf](http://www.hagerwerken.de/wp-content/uploads/2018/01/Bambach-Horch-GB.pdf)

*The work of a dental professional requires a lot of concentration and precision. The limited working area of the mouth often forces us into an unnatural and stiff working position. The Bambach® saddle seat (Hager & Werken) has recognized and solved this problem.*

After extensive and difficult treatments, I used to suffer from back pain resulting from the natural protective function of the body against the unnatural sitting position. Did you know that a bent over sitting position causes a pressure to the intervertebral disk equivalent to carrying heavy weights? In a sitting position, the requirements of our musculoskeletal system do change considerably. We principally try to adopt a (protective) position by tilting back of the pelvis for compensation of the femoral musculature tension. By this position,
