EDELWEISS BASIC WORKSHOP 2022

edelweiss headquarters
Wolfurt, Austria

DATE: 7th - 9th of July

Delivering perfect teeth esthetics and restorations in the anterior and posterior using an innovative “non-prep” procedure

AIMS OF THE COURSE

Speaking about tooth esthetics and restorations, patients frequently choose to either get a treatment option using a direct composite method or, in more severe cases, an indirect method using either ceramic or zirconia.

These methods are well known to both patients and dentists. Yet, there are disadvantages to these methods such as discoloration, invasive tooth preparation and materials that do not provide natural comfort due to their hardness. Moreover, these techniques require additional steps like anesthesia, impressions, temporary restorations, etc. to finalize the treatment – not to mention the high costs for the dentists and patients.

The edelweiss dentistry team is very proud to announce a great alternative to the above-mentioned methods. Our technology does not rely on additional equipment and extra costs. Instead we use pre-fabricated highly strengthened and modified nanohybrid material – exhibiting the natural characteristics of a tooth – that can be shaped and adjusted to the patients' individual needs.

edelweiss dentistry welcomes you to their Headquarters in Wolfurt, Austria and invite you to experience a novelty in the dental world. You will experience first-hand expertise from lectures, hands-on work-shops and live patient demonstrations and be able to interact on a one-on-one basis with speakers from all over the world.

Dear Doctor, we welcome you to the edelweiss dentistry family!

LECTURERS

Stephan Lampi
B.D.S. M.D.T. B.B.A.
CEO & founder edelweiss dentistry

Martin Lampi
M.D.T.
KOL edelweiss Europe

Desigar Moodley
PhD, Msc Dent, PDD Aesthetic, B.D.S.

ALL INCLUSIVE WORKSHOP

NOTE

Course language: English

Deadline for cancellations
of the participants:

May 30th, 2022

INCLUDING

- Ground transportation – dinner locations, office and hotel
- Ground transportation – train station (see travel information on next page)
- Accommodation for two nights
- Food and beverages during workshop (lunch and snacks)
- Material for the workshop
- Group dinners on July 7th and 8th
- Dentists' own models are getting analyzed during workshop*
- Post-workshop support

* THE OPPORTUNITY:

Bring your patient's plaster models and analyze the cases under professional supervision during the workshop. Please take into consideration that many patient cases are suitable for starting to work successfully with edelweiss dentistry products. However, some cases may be refused due to situations, such as severe crowding for instance. Therefore: for evaluation purposes, pictures of plaster models need to be sent to your dealer prior to the course.

Full reimbursement of registration fee is guaranteed if the cancellation happens not later than 30th of May 2022. No reimbursement in case of cancellation after that date.

We reserve the right to cancel the event in case of circumstances beyond our control. In such case your course fee will be refunded in full.

Certificate

A certificate of attendance will be provided at the end of the course.

edelweiss headquarter with integrated dental office „smile center“ and workshop facilities.
